

## Leading Neurology Books Essential for Education, Training and Practice

Lippincott Williams & Wilkins (LWW) Neurology books, accessible via OvidSP - Ovid's innovative medical research platform, offer several classic and gold-standard references in neurology which are —are must-haves for any institution supporting a neurology practice. These texts are essential for education, fellowship training and practitioner reference.

- · Support all healthcare professionals in a fast-moving field from education to training and practice
- Provide access to relevant, up-to-date neurology resources
- Browse and download any multimedia images that are included in a book
- · Quick access to critical neurology resources to support residents and practitioners in real-world clinical situations

#### Top LWW Neurology Books on Ovid include:

#### Merritt's Neurology

Edition: 12th

Authors/Editor: Rowland, Lewis P.; Pedley, Timothy A. Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-0-781-79186-1

The thoroughly updated twelfth edition of this classic retains the organization, practicality, and readability that makes *Merritt's Neurology* one of the most popular texts among neurologists, primary care physicians, and residents reviewing for psychiatry or neurology boards.

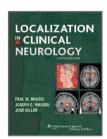

#### **Child Neurology**

Edition: 7th

Authors/Editor: Menkes, John H.; Sarnat, Harvey B. Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-0-781-75104-9

Revised to incorporate the latest advances in the neurosciences and clinical neurology, the seventh edition of this classic text provides practical, cost-effective problem-solving approaches to all diseases affecting the developing nervous system.

#### Localization in Clinical Neurology

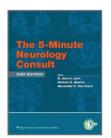

Edition: 6th

**Authors/Editor:** Brazis, Paul W.; Masdeu, Joseph C.;

Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-1-609-13281-1

This classic work is written for frontline clinicians who need to ask "Where is it?" when diagnosing a neurological disorder, helping them reach a diagnosis with greater accuracy and avoiding unnecessary testing. Updated to reflect the latest literature, enhanced with color anatomical diagrams and additional tables, Localization in Clinical Neurology is a cornerstone in clinical neurology.

#### The 5-Minute Neurology Consult

Edition: 2nd

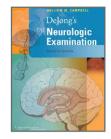

Authors/Editor: Lynn, D. Joanne.; Newton, Herbert B.;

Rae-Grant, Alexander D.

Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-1-451-10012-9

Dozens of noted authorities provide tightly organized, practical guidance. Using the famous two-page layout and outline format of *the 5-Minute Consult Series*, the book provides instant access to clinically-oriented, must-have information on all disorders of the nervous system.

#### DeJong's The Neurologic Examination

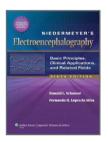

Edition: 7th

Authors/Editor: Campbell, William W.

Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-1-451-10920-7

Without abandoning classic concepts and science, this definitive source on neurologic examination techniques has been streamlined and updated. The text integrates details of neuroanatomy and clinical diagnosis in an easy-to-read format. Anatomical and exam illustrations help ensure proper technique.

#### Niedermeyer's Electroencephalography

Edition: 6th

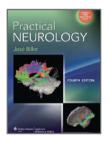

**Authors/Editor:** Schomer, Donald L.; da Silva, Fernando

Lopes

**Publisher:** Lippincott Williams & Wilkins (LWW)

ISBN: 978-0-781-78942-4

An international group of experts provides comprehensive coverage of the neurophysiologic and technical aspects of EEG, evoked potentials, and magnetoencephalography, as well as the clinical applications of these studies in neonates, infants, children, adults, and older adults.

#### Practical Neurology

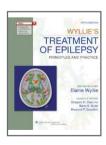

Edition: 4th

Authors/Editor: Biller, Jose

Publisher: Lippincott Williams & Wilkins (LWW)

**ISBN:** 978-1-451-14263-1

The book's outline format and standard chapter template offers the reader immediate, comprehensive information. The author is a well-respected educator who has a talent for making neurologic information accessible and understandable.

## Wyllie's Treatment of Epilepsy: Principles and Practice

Edition: 5th

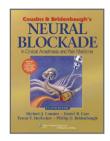

**Authors/Editor**: Wyllie, Elaine; Cascino, Gregory D.;

Gidal, Barry E.; Goodkin, Howard P.

Publisher: Lippincott Williams & Wilkins (LWW)

**ISBN:** 978-1-582-55937-7

In one convenient source, Wyllie's Treatment of Epilepsy: Principles and Practice provides a broad, detailed, and cohesive overview of seizure disorders and contemporary treatment options.

## Cousins and Bridenbaugh's Neural Blockade in Clinical Anesthesia and Pain Medicine

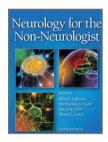

Edition: 4th

Authors/Editor: Cousins, Michael J.; Bridenbaugh, Phillip O.; Carr, Daniel B.; Horlocker, Terese T.

Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-0-781-77388-1

This comprehensive, authoritative text presents the scientific foundations and clinical practice of neural blockade in both regional anesthesia and the management of pain. The descriptions and illustrations of pain mechanisms in this work are considered classic examples.

#### Neurology for the Non-Neurologist

Edition: 6th

**Authors/Editor:** Weiner, William J.; Goetz, Christopher

G.; Shin, Rober K.; Lewis, Steven L.

Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-1-605-47239-3

Neurology for the Non-Neurologist, sixth edition is a practical guide for primary care physicians, psychiatrists, and other non-neurologist clinicians who encounter patients with neurologic problems.

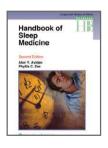

#### Samuel's Manual of Neurologic Therapeutics

Edition: 8th

**Authors/Editor:** Samuels, Martin A. Ropper, Allan H **Publisher:** Lippincott Williams & Wilkins (LWW) **ISBN:** 978-1-605-47575-2, 978-0-781-74646-5

The book, geared toward primary care physicians, has been completely updated, with a special focus on such topics as treatment of neuromuscular disorders using IV immunoglobulin; enzyme replacement therapy for genetic muscle disease; new information on the interventional treatment for various cerebrovascular diseases; and updates on treatment options.

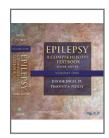

#### Handbook of Sleep Medicine

Edition: 2nd

**Authors/Editor:** Avidan, Alon Y.; Zee, Phyllis C. **Publisher:** Lippincott Williams & Wilkins (LWW)

ISBN: 978-1-609-13347-4

Expanded to include detailed information on pharmacologic and non-pharmacologic treatment, this second edition of *the Handbook of Sleep Medicine* continues to offer a concise overview of the field for trainees and practitioners in the many disciplines that deal with sleep disorders.

#### Epilepsy: A Comprehensive Textbook

Edition: 2nd

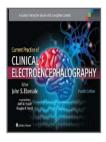

Authors/Editor: Jerome Engel Jr., MD, PhD; Timothy A.

Pedley MD

Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-0-781-75777-5

Written and edited by world-renowned authorities, this three-volume work is, to quote a reviewer, "the definitive textbook about seizures and epilepsy." More than 300 chapters cover the spectrum of biology, physiology, and clinical information, from molecular biology to public health concerns in developing countries.

#### Current Practice of Clinical Electroencephalography

Edition: 4th

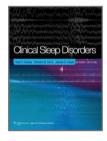

**Authors/Editor:** Ebersole, John S.; Husain, Aatif M.;

Nordli, Douglas R.

**Publisher:** Lippincott Williams & Wilkins (LWW)

ISBN: 978-1-451-13195-6

Perfect for students, physicians-in-training, researchers, and practicing electroencephalographers who seek a substantial, yet practical compendium of the dynamic field of electroencephalography.

#### Clinical Sleep Disorders

Edition: 2nd

Authors/Editor: Carney, Paul R.; Berry, Richard B.;

Geyer, James D.

Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-0-781-78692-8

This clinically focused, practical reference is a complete guide to diagnosing and treating sleep disorders. The text is written by and for the wide variety of clinicians who encounter sleep disorders, including neurologists, pediatric neurologists, pulmonologists, pediatric pulmonologists, neuropsychologists, psychiatrists, and sleep laboratory technicians.

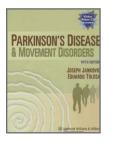

#### Weiner and Levitt's Neurology

Edition: 8th

**Authors/Editor:** Rae-Grant, Alexander **Publisher:** Lippincott Williams & Wilkins (LWW)

ISBN: 978-0-781-78154-1

Thoroughly updated for its eighth edition, this highly praised volume of the House Officer series is a succinct, symptom-oriented pocket guide to diagnosis, treatment, and management of common neurological disorders. Each chapter opens with a clinical case study and proceeds to classification of symptoms, history, physical examination, laboratory tests, differential diagnosis, diagnosis, treatment, and management.

## Parkinson's Disease and Movement Disorders

Edition: 5th

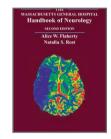

Authors/Editor: Joseph Jankovic MD;

Eduardo Tolosa MD

Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-0-781-77881-7

Written by an international group of renowned experts, this comprehensive resource provides current information on the genetics, pathophysiology, diagnosis, medical and surgical treatment, and behavioral and psychologic concomitants of all common and uncommon movement disorders.

#### The Massachusetts General Hospital Handbook of Neurology

Edition: 2nd

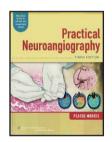

Authors/Editor: Alice W. Flaherty MD, PhD; Natalia S.

Rost MD

**Publisher:** Lippincott Williams & Wilkins (LWW)

ISBN: 978-0-781-75137-7

Pocket-sized handbook is a practical quick-reference guide to the diagnosis and management of neurologic diseases. It presents specific management recommendations in a succinct outline format and includes protocols, step-by-step tests and procedures, and treatment algorithms.

#### Practical Neuroangiography

Edition: 3rd

Authors/Editor: Morris, P. Pearse

Publisher: Lippincott Williams & Wilkins (LWW)

**ISBN:** 978-1-451-14415-4

The Third Edition provides the new fellow with the background knowledge needed to understand these procedures, the unusual variant anatomy that can affect treatment and outcomes, and the field's current limitations.

#### Handbook of Stroke

Edition: 2nd

Authors/Editor: David O Wiebers MD; Valery L Feigin

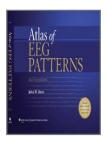

MD, DSc; Robert D Brown Jr., MD, MPH

**Publisher:** Lippincott Williams & Wilkins (LWW)

ISBN: 978-0-781-78658-4

Thoroughly updated to reflect the best current practices in stroke medicine, *Handbook of Stroke*, Second Edition is a user-friendly one-stop guide to the clinical management of patients with cerebrovascular disorders—from clinical and laboratory assessment, differential diagnosis, and initial management, to medical and surgical treatment, prognosis, rehabilitation, and stroke prevention.

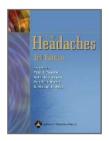

#### Atlas of EEG Patterns

Edition: 2nd

Authors/Editor: Stern, John M.; Engel, Jerome Jr. Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-1-451-10963-4

The electroencephalogram (EEG) is an essential tool in the diagnosis of neurologic disorders. Now in its second edition, Atlas of EEG Patterns has been fully revised and updated to include an even broader array of both typical and atypical EEG pattern samples to help you recognize telltale abnormalities.

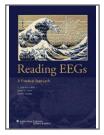

#### The Headaches

Edition: 3rd

Authors/Editor: Olesen, Jes; Tfelt-Hansen, Peer; Welch, Michael A.; Goadsby, Peter J.; Ramadan, Nabih M. Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-0-781-75400-2

Established worldwide as the one definitive, encyclopedic reference on headache, The Headaches is now in its thoroughly revised, updated third edition. The foremost international authorities examine the mechanisms of over 100 types of headache and provide evidence-based treatment recommendations, including extensive tables of controlled clinical trials.

#### Reading EEGs: A Practical Approach

Edition: 1st

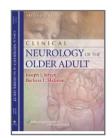

Authors/Editor: Greenfield, L. John; Geyer, James D.;

Carney, Paul R

Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-0-781-79344-5

Focuses on pattern recognition and pattern comparison. The concepts of pattern recognition are developed in a logical fashion based on appearance rather than disease process. The book teaches waveform recognition so that the reader can generate a differential diagnosis based on that recognition.

#### Clinical Neurology of the Older Adult

Edition: 2nd

Authors/Editor: Sirven, Joseph I.; Malamut, Barbara L. Publisher: Lippincott Williams & Wilkins (LWW)

ISBN: 978-0-781-76947-1

The book is organized so that clinicians can quickly look up either a patient's symptom(s) or a disease, and includes medication charts and diagnostic algorithms. Psychosocial issues such as driving and long-term care options are also addressed.
