About Wiley

Wiley has been a valued source of information and understanding for more than **200 years**.

Partnering with many of the world's leading societies, our content, products, and services help researchers, professionals, educators and students around the world meet their needs and fulfil their aspirations.

Wiley Online Library hosts the world's broadest and deepest multidisciplinary collection of online resources covering life, health and physical sciences, social science, and the humanities. It delivers seamless integrated access to over 6 million articles from over 1400 journals, over 18,900 online books, and hundreds of reference works, laboratory protocols and databases.

Introducing Wiley Online Library

Our Products:

- 1,500+ peer reviewed journals (over 7 million articles)
- 20,00+ online books
- 190+ multi-volume references and handbooks
- 18 current protocols (laboratory manuals featuring over 10000 protocols)
- 13 databases (chemistry & evidence based medicine)

- Psychology

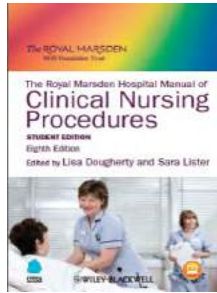

Nobel Prize Winners

It is our great honour to have published the works more than **500** Nobel Prize Laureates. This prestigious accolade conferred on our authors reaffirms Wiley's commitment to publishing quality content for the benefit of the research and scholarly communities.

Wiley is honoured to have published the works of these Nobel Laureates:

- Tomas Lindahl
- Paul Modrich
- Aziz Sancar
- Arthur B. McDonald
- William C. Campbell
- Satoshi Omura
- Edvard I. Moser
- Angus Deaton

Wiley/Wiley-VCH publishes across the breadth and depth of chemistry. The journal program is highly regarded as one of the best in the market. Our portfolio includes general chemistry titles such as *Angewandte Chemie International*, to niche and specialised journals like *Fuel Cells and ChemSusChem*, which cover niche but important disciplines in the field. In addition to journals, our extensive portfolio also includes Journal Backfiles and Online Books, with content dating back to 1832.

Wiley is proud to partner with more than 50 chemistry societies globally, representing over 500,000 members worldwide. 97% of all Nobel Laureates in Chemistry have chosen to publish their research with Wiley/Wiley-VCH .

Blackwell Reference Online

A comprehensive online reference resource for the social sciences and humanities, designed to suit the needs of the busy student, researcher, or professor.

- Offers 24/7 access to the content from 725 of **Wiley-Blackwell's acclaimed companions, handbooks, dictionaries and guides in full text xml.**
- Published in annual collections of new content (2007 onwards). Existing customers can choose to "top up" their collections annually; new customers can choose to buy any of the annual collections, or the complete collection.
- **69 new titles** in 2015 collection (went live in Dec '13).
- Offers users **sophisticated search options and innovative classification** – by subject, person, period, key topic and place

Chemical Databases and Spectral Library

About the databases

- Over 1.3 million spectra, including spectra of human metabolites for metabolism research and orthogonally validated laboratory-sourced data
- Over 600,000 validated reactions and syntheses - most reactions have been independently reproduced by leading researchers with extensive methods descriptions
- An indispensable resource for undergraduate and graduate students, lecturers and researchers
- Regular updates and new additions to the list
- Flexible purchasing options to suit your needs
- The same spectral libraries are used in leading laboratories around the world.

Covering 10 individual databases offer you the opportunity to mix and match your holdings so you can save money, meet current faculty demand, and serve student needs:

Evidence-Based Medicine

About the databases

Wiley-Blackwell offers evidence-based medicine (EBM) databases that are designed to aid healthcare professionals in accessing the right information at the right time. As a commitment to an evidence-based approach continues to grow, our products provide up-to-date, impartial medical information to facilitate diagnosis and improve patient care by improving outcomes.

Essential Evidence Plus

Designed for clinicians who deliver first-contact care, this resource includes more than 13,000 topics, guidelines, abstracts and summaries, covering all the information required to make critical patient care decisions. *Essential Evidence Plus* now comprises *EBM Guidelines* when licensed directly from Wiley-Blackwell.

essentialevidenceplus.com

The Cochrane Library

This unparalleled resource provides practitioners with protocols, systematic reviews, abstracts, technology assessments, economic evaluations, and clinical trials abstracts, ensuring they have the most up-to-date, independent, and assessed healthcare information at their fingertips.

thecochranelibrary.com

EBM Guidelines

Follows the latest developments in clinical medicine and brings evidence into practice. An easy-to-use collection of clinical guidelines for primary and ambulatory care linked to the best available evidence summaries from *Cochrane* and other sources.

ebmg.wiley.com

WILEY

The Cochrane Library is a reference collection that contains different types of high-quality, independent evidence to inform healthcare decision-making, and a seventh database that provides information about Cochrane groups.

Highlights

- The Cochrane Database of Systematic Reviews (CDSR) is the leading resource for systematic reviews in health care.
- Cochrane systematic reviews are enhanced with the HTML Anywhere Article and ReadCube Enhanced PDF.
- Wiley and Cochrane have been publishing partners since 2003. Cochrane produces systematic reviews of primary research in human health care and health policy, and are internationally recognized as the highest standard in evidence-based health care resources. Wiley publishes these reviews.

Cochrane Clinical Answers (CCA) takes high-quality Cochrane evidence and translates it into a clinically actionable question and answer format.

CCAs are sold exclusively with the Cochrane Library to provide a full suite of high-quality evidence for researchers, clinicians and health workers alike, and as of mid-2016, there are 950+ Clinical Answers available.

- CCAs are written by Clinicians, for Clinicians.
- New content is written and published continuously, with an approximate growth rate of >20 per month.
- The Cochrane Library and CCAs are set up with full links back and forth so that users can toggle between systems to get maximum understanding and detail when they need it, as well as concise answers when they are required quickly.
- CCAs covers a wide variety of medical topics, including all internal medicine specialties, with many more topics planned for future development.

Anywhere Article

All journal HTML articles, including backfile HTML articles, are now presented in the Anywhere Article format.

Anywhere Article is focused on keeping the advantages of PDF's whilst making our online journal content on Wiley Online Library more readable and portable, and allowing rich information to be brought to the surface. It achieves these goals in the following ways:

Abstract

[1] We present the first detailed 2D seismic tomographic image of the trench-outer rise, fore- and back-arc of the Tonga subduction zone. The study area is located approximately 100 km north of the collision between the Louisville hot spot track and the overriding Indo-Australian plate where ~80 Ma old oceanic Pacific plate subducts at the Tonga Trench. In the outer rise region, the upper oceanic plate is pervasively fractured and most likely hydrated as demonstrated by extensional bending-related faults, anomalously large horst and graben structures, and a reduction of both crustal and mantle velocities. The 2D velocity model presented shows uppermost mantle velocities of ~7.3 km/s, ~10% lower than typical for mantle peridotite (~30% mantle serpentinization). In the

The screenshot shows a Wiley article page. On the left is a sidebar for 'Wiley Editing Services' including English Language Editing, Translation Services, Manuscript Formatting, and Figure Preparation. The main content area features the journal title 'HEPATOLOGY' and the American Association for the Study of Liver Diseases (AASLD) logo. A red box highlights a dropdown menu with the option 'Go to old article view'. Below the journal title, the article is titled 'Hepatology highlights' by Jean-François Dufour. It includes publication details: first published on 29 September 2015, DOI 10.1002/hep.28127, and 0 articles cited. An 'Am score' of 1 is displayed. A 'Potential conflict of interest' section states 'Nothing to report.' On the right, there is a thumbnail for 'View issue TOC' for Volume 62, Issue 4, October 2015, pages 985-987. At the bottom of the article content, the text 'HCC: How to RECIST' is visible.

Altmetric

What do altmetrics measure?

Altmetrics measure the impact of individual articles across Social Media and online reference managers.

Altmetric collect the data by tracking online indicators (both scholarly and non-scholarly) to give a measurement of digital impact and reach.

The Altmetric data available on the journal articles allows the user to:

- See the attention that each article is receiving in real-time
- Explore the conversations surrounding the content
- Identify recent papers that are being discussed/shared by peers.

What do altmetrics measure?

The Altmetric score is one measure of the quality and quantity of online attention that the article has received. You can read about how Altmetric scores are calculated here.

This article scored 17.02

The content below was calculated when this article was last mentioned on 19th May 2014

Compared to all articles in EMBO Molecular Medicine

To be Altmetric has tracked 260 articles from this journal. They typically receive more attention than average, with a mean score of 7.7 on the global average of 4.0. This article has done well, scoring higher than 97% of its peers.

In the
87%

Ranks
31st

All articles of a similar age

Other articles will score higher simply because they've had more time to accumulate mentions. To account for age we can compare this score to the 80,676 tracked articles that were published within six months on either side of this one in any journal. This article has done particularly well, scoring higher than 50% of its contemporaries.

In the
92%

Other articles of a similar age in EMBO Molecular Medicine

We're also able to compare this article to 8 articles from the same journal and published within six months on either side of this one. This article has scored higher than 3 of them.

In the
75%

Ranks
2nd

All articles

More generally, Altmetric has tracked 2,264,421 articles across all journals so far. Compared to these this article has done particularly well and is in the 95th percentile. It's in the top 5% of all articles ever tracked by Altmetric.

Romanian Research Output in Web of Science

Overview

- Research output from Romania is growing steadily, reaching almost the 7,500 paper mark in 2016.
- Relative citation impact for Romania is steadily increasing since 2009
- Levels of international collaboration for Romania are remaining stable and growing at around 45%.
- In 2016, authors from Romania collaborated with authors from various countries worldwide. The largest proportion of these papers were co-authored by American, French and German authors.
- In 2016, 61% of papers with an author from Romania acknowledged at least one funding agency.
- Open Access in Romania continues to grow rapidly and in line with Web of Science. In 2016 it stood at 13%.
- Chemistry and Engineering represents the largest subject area for Romania, yet this area is growing slightly slower than national average. Psychology, in contrast, is growing well above the national average with a CAGR of around 25%.

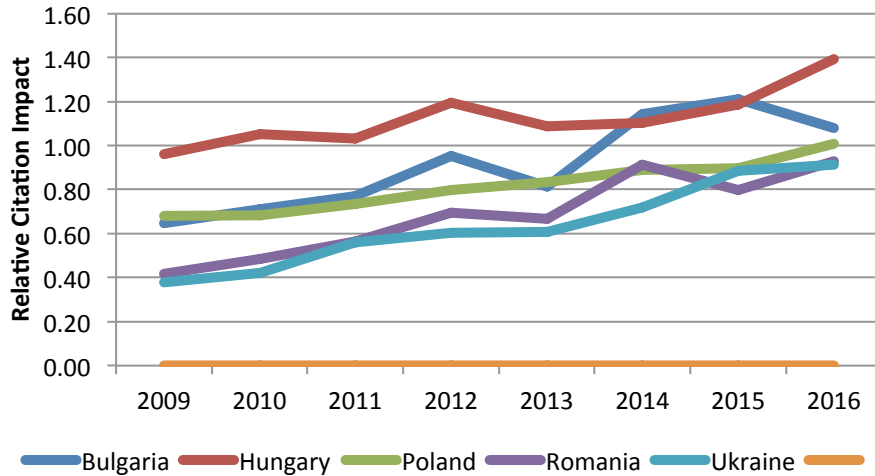

Romania vs Region - Growth

Country	Growth Rate (CAGR)
Bulgaria	0.1%
Hungary	4.0%
Poland	6.2%
Romania	3.2%
Ukraine	-0.4%
World Totals	4.1%

Research output from Romania is increasing steadily (CAGR 3.2%)

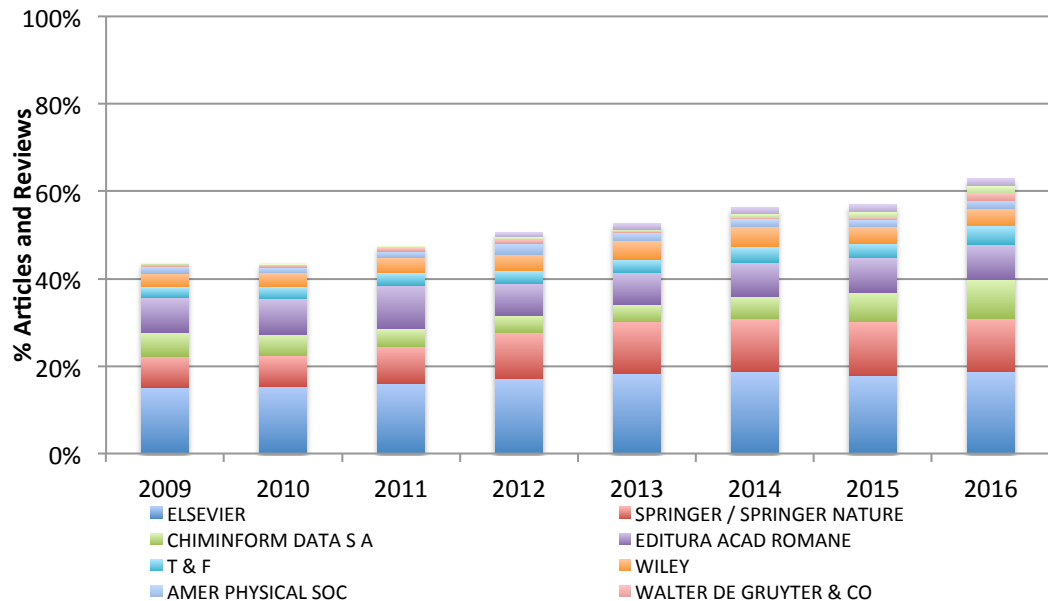

Citation Impact – Romania vs Region

‘Relative Citation Impact’ represents the average count of citations per paper, weighted by the world average (so that a score above 1 represents above-average for the world).

Relative citation impact for Poland is increasing steadily in Web of Science output.

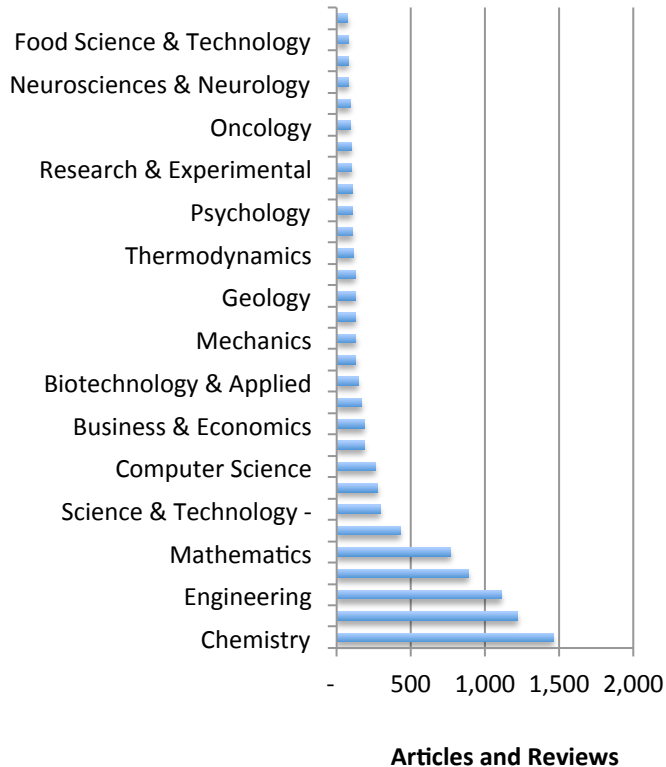

Romania by Publisher

Also American Physical Society, The Royal Society of Chemistry, American Chemical Society and IOP Publishing Ltd have been publishing 2% of Romanian research output each year in 2009-2016

Chemistry and Engineering are the largest disciplines in Romania, although all of them currently demonstrate lower growth compared to the national average of 6.2%.

(See next slide for growth and share statistics for these 25 subject categories)

Romania – Growth by Subject

The highest level of growth is from the 'Other Topics – Science and Technology' area.

A close-up photograph of a person's hand holding a small, realistic globe of the Earth. The globe shows the Americas and parts of Europe and Africa. The background is a soft-focus green lawn. A decorative white dotted line runs along the right edge of the image, curving around a white circular area that contains text.

Introducing Wiley Online Library

For Authors

Wiley Online Library is host to many tips, tricks and resources to help you get published, whatever stage you're at. From article preparation to peer review, to publication, to promotion, Wiley is with you every step of the way – helping you achieve Quality, Reach and Impact.

How is Wiley Online Library Supporting Authors?

Whether it's a journal, book or reference work, Wiley provides everything you need to know to prepare, submit, publish and promote your work. Clear tools and guidelines are provided for each of the following publication journeys:

- Find the right journal for your research
- Crosscheck OA funder mandate compliance

- Let us help you prepare your article (author guidelines for all journals plus publishing ethics guidance)
- Request English language and editing support

- Register with ORCID iD to get credit for your work
- Submit your article and data quickly and easily online
- Get clear peer review guidance

- Choose and pay for open access publication
- Sign your relevant copyright license
- Check out your options for funding open access publication

- Track your article through production
- Track every step of the process, from acceptance, proofing and corrections to publication online

- See how Wiley promotes your work
- Promote your own article

Wiley's Author Workshops and Webinars

Wiley hosts a variety of training opportunities for authors of all abilities. The most common are workshops and webinars, set up to teach authors the tools and skillsets needed to progress in their work and ultimately get published.

The first ever EMEA Library Author Workshop WEBINAR took place last month, live in Chichester and was presented at Universidad de Valladolid in Spain. Organized by EMEA Library Services with Cristina de Bufala, the webinar was hosted by the university librarian and focused on how their researchers can successfully write and publish journal articles. The presentation was given in Spanish by our in-house journals editor, Sonsoles Acosta.

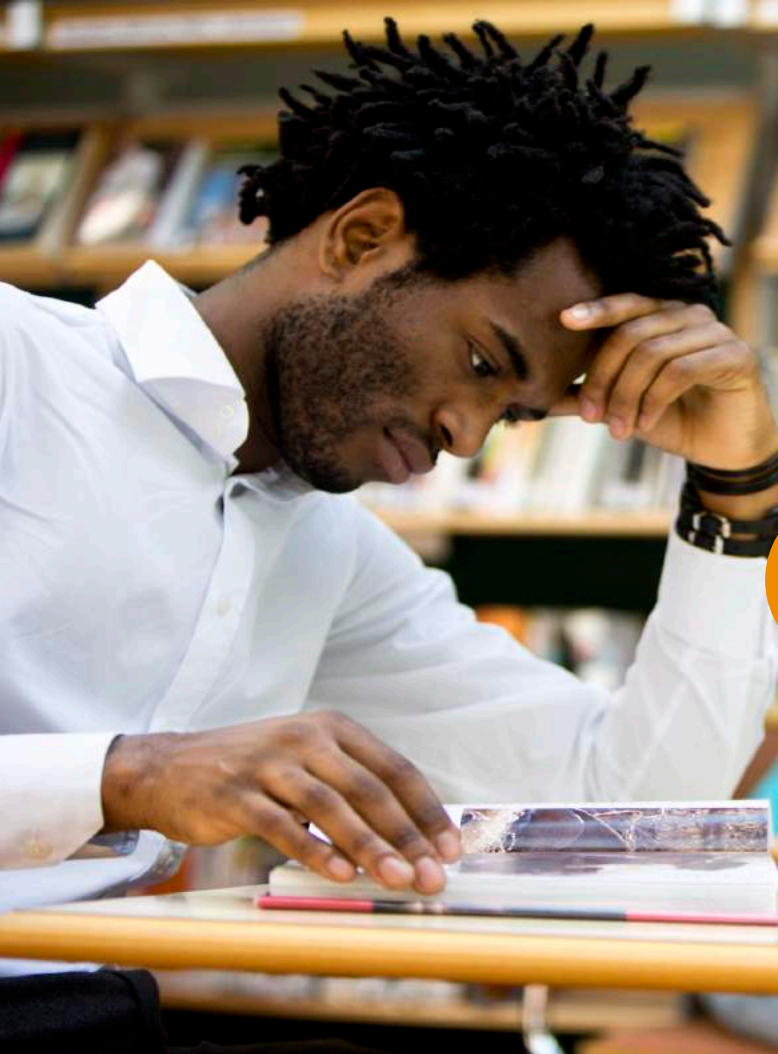

The background is a light teal color with several overlapping, semi-transparent circular shapes in various shades of teal. A dotted line of small dark teal dots curves across the upper right portion of the page.

WILEY

How To Write Your Paper

Speaker name

What the Editor is looking for?

Title

Abstract: the only pieces of your manuscript reviewers will look at before they decide to review a paper

Cover letter

Figures

Presentation of the manuscript

Title

- The first impression counts...
- A strong title will convince the editor/reviewer and will attract readers leading to more citations
- Short – not more than 15 words
- Informative – main message, main finding of the paper
- Precise - Do not use vague titles
- Avoid starting with
 - Studies on....
 - Characterization of.....
 - Optimization of....
 - Investigations on....
- Do not use “new” or “novel”

Abstract

- Maximum **200 words** (Pubmed truncates at 250 words)
- What are the significant **results**?
- Important **methodology** (Experimental systems)
- What are the **conclusions/implications/applications**?
- Start by writing in bullet points and take time to write and re-write this part with some distance
- Write in past tense
- No citations, avoid non-standard abbreviations
- Most important: **First and last sentence**

Cover Letter

- Convince the editor of the **importance** of your work
- State in a few sentences what the paper is about (not abstract)
- Why does it fit the **scope** of the journal?
- Why is it novel?
- Why will it be of interest to reviewers?
- Think of the **practical application**
- Clarify any point that may raise question
- A statement that the paper has been read and approved by all the authors
- **Write this for the EDITOR!**

Welcome

Author Services offers **many benefits** to journal authors, including:

- Single sign-on with Wiley Online Library. Create one account and use it on both sites.
- Find the journal that's right for your article.
- Track your accepted article through production (most journals).
- Free access to your published article and ability to nominate colleagues to receive free access (most journals).

Following are **a few tips** for using Author Services:

- To submit an article to a ScholarOne Manuscripts site, you will need to create a separate account on that site.
- When an article is accepted, the corresponding author receives an e-mail with a unique code and link. Logging in to Author Services with the same e-mail address where the alert is received automatically connects the author to the article. Alternatively, authors may register with any e-mail address: use the "add article" feature and enter the unique code contained in the initial e-mail to connect to the article. There may be a short delay from when the article is accepted by the journal and when it has been received at Wiley-Blackwell.
- Corresponding authors can sign in and provide co-authors' e-mail addresses; this enables co-authors to track their articles and receive free access to the final, published version.

To learn more about the features of this website and the useful information it contains, look below: **what would you like to do?**

Wiley Researcher Academy

WILEY

Wiley Researcher Academy

14 courses (50 hours of self-paced learning) explaining the context, processes, trends a researcher needs to understand to be successful in publishing journal articles

Essential learning for Early Career Researchers, excellent refresher training and information on current trends for the more experienced.

Learning objects of the highest quality, created by Wiley's global network of editors, experts in author training

Self-paced programme to enable the widest participation of post-doctoral researchers, doctoral and masters students

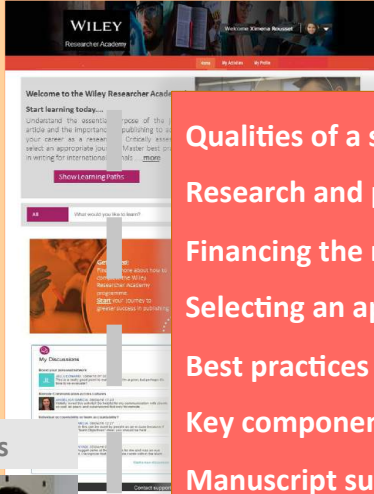

Engaging learning formats and excellent support for the anytime, anywhere learner throughout the course

Solution developed on Wiley's award-winning *CrossKnowledge* platform, distinguished for its industry-leading levels of usage and completion

The screenshot displays the Wiley Researcher Academy website. At the top, the Wiley logo and 'Researcher Academy' are visible, along with a user profile for 'Ximena Roussel'. A navigation bar includes 'Home', 'My Articles', and 'My Profile'. The main content area features a welcome message: 'Welcome to the Wiley Researcher Academy! Start learning today... Understand the essential purpose of the journal article and the importance of publishing to advance your career as a researcher. Critically assess and select an appropriate journal. Master best practices in writing for international journals... more'. A 'Show Learning Paths' button is present. Below this is a search bar with the text 'What would you like to learn?'. The interface is divided into several sections: 'Get Started!' with a call to action to complete the Wiley Researcher Academy programme; 'My Learning Paths' listing topics such as funding research projects, selecting journals, writing scientific articles, manuscript submission, peer review, open access, and managing research data; 'My Discussions' showing a list of user posts and replies; and 'My Learning Community' with options to 'Share experiences', 'Find guidance', 'Share problems', and 'Find a mentor'. The footer contains 'Contact support', 'Test My Settings', the Wiley logo, and the CrossKnowledge logo.

Configurable learning pathways

Early Career Researchers

- Qualities of a successful scientific researcher
- Research and publication: the essential link
- Financing the research project
- Selecting an appropriate journal
- Best practices in writing scientific articles
- Key components of a scientific article
- Manuscript submission
- Peer review
- Open access to scientific literature
- Managing research data
- Ethical questions in writing scientific papers
- The roles of the publisher and journal editors
- Post-publication activities and driving visibility
- Becoming a peer reviewer
