

# Vizibilitatea și analiza conținutului Open Access în Web of Science

Adriana FILIP - Solutions Consultant  
[adriana.filip@clarivate.com](mailto:adriana.filip@clarivate.com)

*Februarie 2021*

# Suținerea inițiativelor Open Science, cu date neutre, fiabile și de încredere

„Știința deschisă” este un termen folosit pentru a reprezenta toate formele de “deschidere” în cercetarea științifică.

## Web of Science

Web of Science helps you find full text from quality Open Access journals and measure the impact of your institution’s investment in Open Access.

## Journal Citation Reports

In addition to the profile information of journals, Open Access content is also visualised.

## Master Journal List

A searchable list of Web of Science journals, containing submission, Open Access and peer review data.

## VIVO Services

We are a corporate sponsor of VIVO, an Open Source web application used to showcase institutions.

## EndNote Click

Single click access to full text via both subscription content and Open Access.

## Data Citation Index

Providing quick access to research data. We are also DataCite members, and endorse the Force 11 joint declaration on data citation.

## Publons

Providing a free profile solution for researchers and reviewers. It is also pioneering the Transparent Peer Review.

## InCites B & A

Allows benchmarking and analysis of Open Access performance, across individuals, organisations, funders, publishers and countries.

# Web of Science

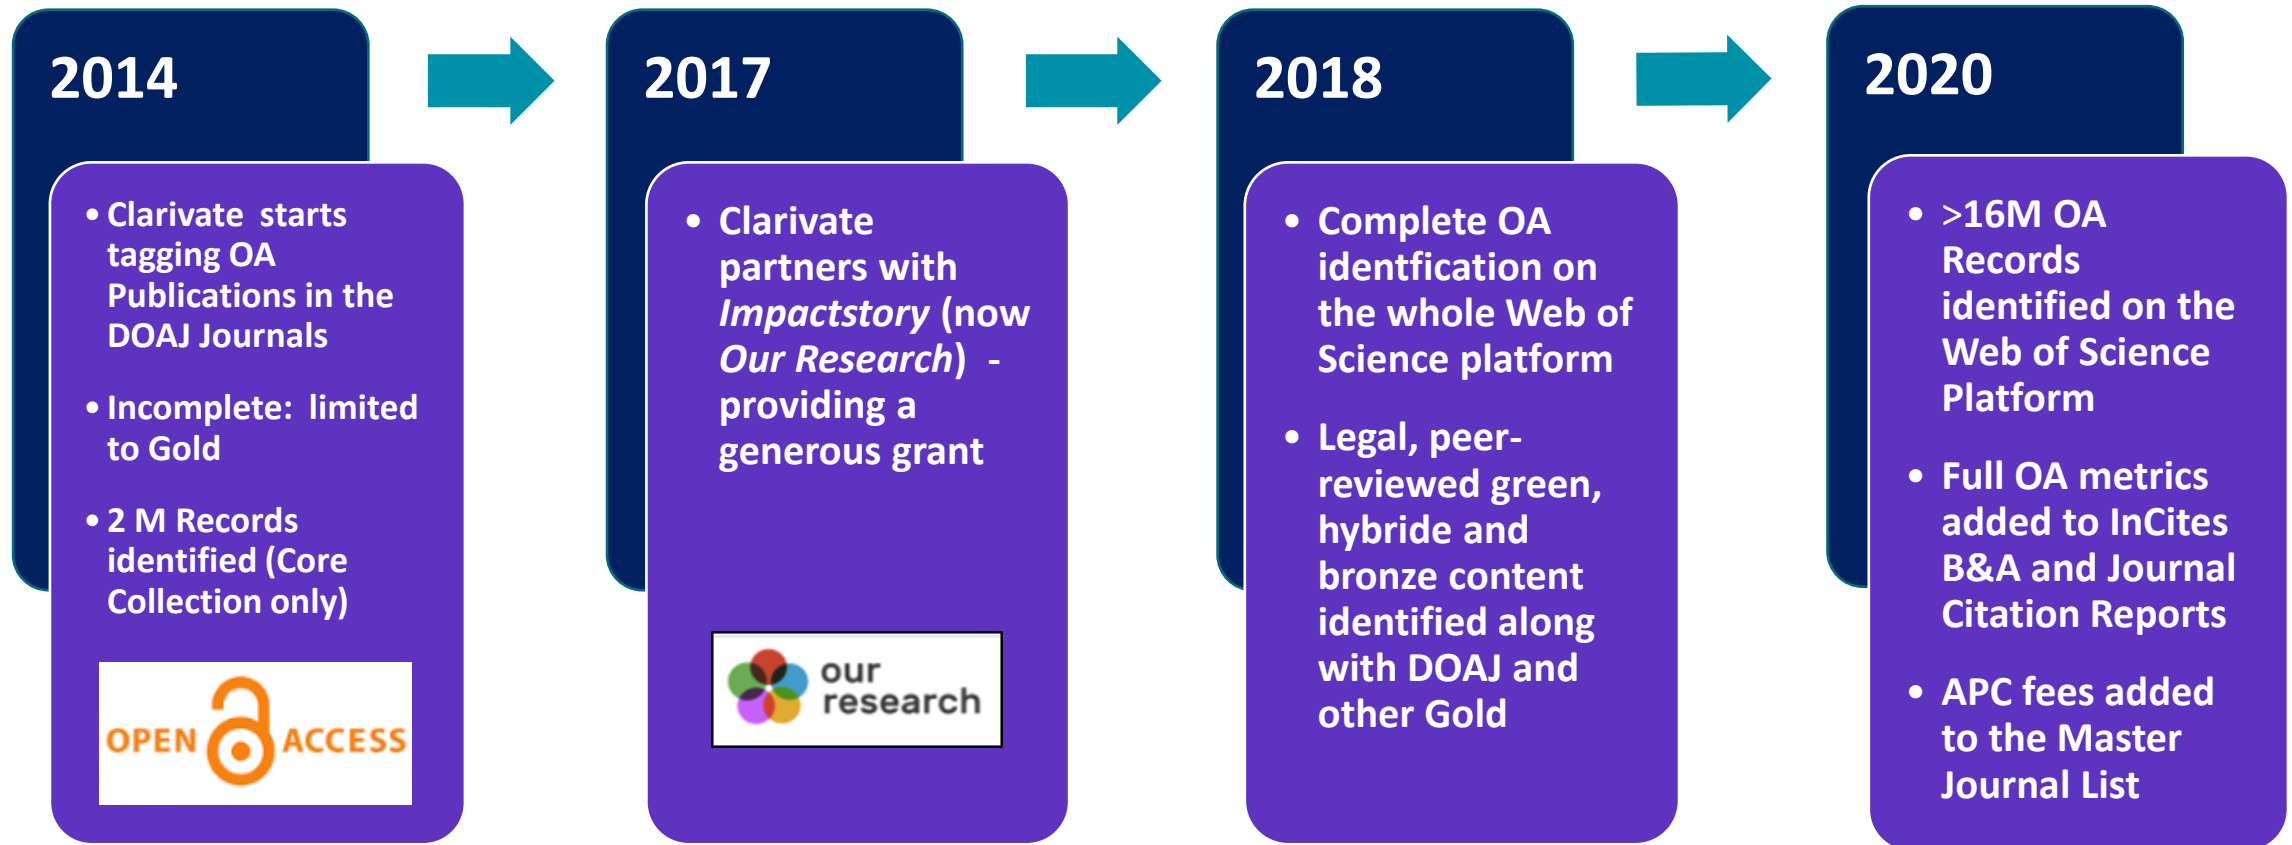

# Web of Science Core Collection | Date neutre, fiabile și de încredere

- Comprehensive and transparent curation and selection criteria for high-quality research, equally applicable **for all OA journals**
- See selection details [here](#)
- See our [Master Journal List](#) for transparent content detail

Our data powers national assessment and evaluation exercises, including UK REF, Norway and Australia, providing a reliable baseline for measuring a core aspect of research performance.

# Evoluția identificării accesului deschis în Web of Science

Acces direct la textul integral pentru cel mai bun conținut OA disponibil

# Web of Science

Our grant to Impactstory (now Our Research) has enabled information providers like us to present the **various types of Open Access**. For researchers, organisations and funders to analyse. This information is **updated weekly**.

The main links are displayed on the search results page and all Open Access links are made available within the record.

**Filters** are provided for all Open Access types, enabling the focus on particular sets of records.

# New Web of Science

Analyze Results provides an easy way to see a picture of Open Access within a topic, an organisation, a funder, plus others. Trends over time can also be seen.

Simply refine your results to get the documents you want to analyse and select the “Open Access” option.

Select All	Field:	Record Count	% of 282,818
<input type="checkbox"/>	Open Access		
<input type="checkbox"/>	All Open Access	282,818	100.000%

# Web of Science

By exporting the data, you can use other applications to produce the bespoke analysis and customised charts that you need for your reports.

# EndNote Click

# EndNote Click

*formerly Kopernio*

- A **Free** browser plug-in
- One click access to Full Text
- **Integrates with library holdings**
- Travels with the researcher
- Currently used worldwide by over 750k researchers.

- Download the free Plugin (for Chrome, Firefox, Opera) from <https://click.endnote.com/>

Access research papers  
in **one click.**

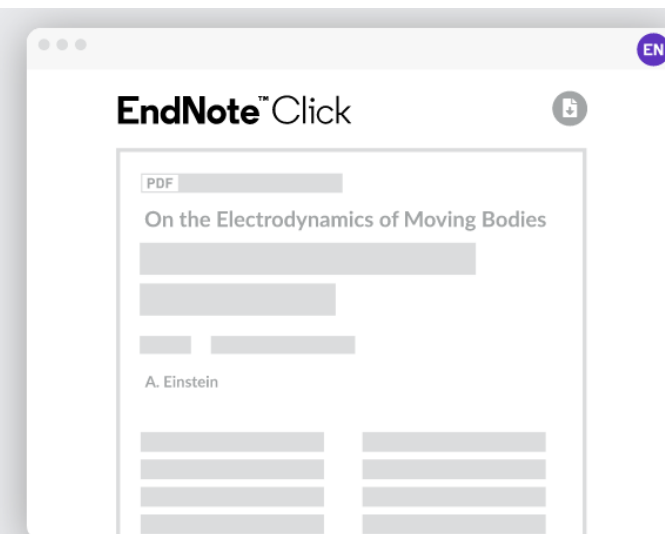

Save time accessing full-text PDFs with the free EndNote Click browser plugin.

Create your EndNote Click account

4.8 stars in the Chrome Web Store

Used by over 750,000 researchers

- Create your account (you could use your Web of Science or EndNote credentials), optionally select your institution
- *The Plugin can also be installed from EndNote 20.*

# How does it work?

- Looks up the DOI via library subscription services (if available) and Open Access sources.
- One-click access to PDFs on article pages.
- Also integrates with the institution's link resolvers via OpenURL, to avoid 'dead ends'.
- Works on thousands on websites.

When you visit an article page on any academic website, EndNote Click searches for full text PDFs and gives you one-click access via a button that is in a consistent, convenient place.

The screenshot shows a web page for an article titled "Arsenic, cadmium, lead, and mercury contents of mushroom species in Korea and associated health". The authors listed are Jae-Min An, Song-Yi Gu, Dae-Jung Kim, Hee-Chang Shin, Kyong-Suk Hong & Yong-Kyoung Kim. The page includes a navigation bar with options like "Full Article", "Figures & data", "References", "Citations", "Metrics", "Licensing", and "Reprints & Permissions". A sidebar on the left shows citation counts (0 CrossRef citations to date, 0 Altmetric) and a "PDF found" section with options for "Your EndNote Click Locker", "Publisher version", and "Open Access version". A prominent "View PDF" button with the EndNote Click logo (EN) is visible at the bottom left of the article content area.

# Smart Extension

Click the Plugin icon and see:

- Title, Author, Journal, year
- Citation count from the **Web of Science** Core Collection
- The PDF version, source and direct link.

In addition:

- Open the PDFs in the **EndNote Click Locker**
- Download the PDFs
- Export the PDFs to your reference manager.
- Run a search on **Web of Science** or PubMed.

The screenshot displays the EndNote Click extension interface. At the top, there's a search bar containing 'Web of Science topic keywords'. Below it, a checkbox labeled 'Select all available PDFs' is visible. The main content area lists search results:

- Prevention of late-life dementia: what works and what does not**  
Author: . P  
Journal: *Polish Archives of Internal Medicine* (2018) Cited by 1 Open Access  
PDF Source: <http://pdfs.semanticscholar.org/c1ab/2a8a0b791c84b5fcab4deb30d9a8ee6b9a72...>
- Dementia risk and prevention by targeting modifiable vascular risk fact...**  
Author: . S  
Journal: *Journal of Neurochemistry* (2018) Cited by 19 Publisher PDF Found  
PDF Source: <https://onlinelibrary.wiley.com/doi/pdfdirect/10.1111/jnc.14132>
- Vitamin D in dementia prevention**  
Author: . C  
Journal: *Annals of the New York Acad...* (2016) Cited by 25 Publisher PDF Found  
PDF Source: <https://onlinelibrary.wiley.com/doi/pdfdirect/10.1111/jnc.14132>

The background shows a PubMed search results page for 'dementia' with 25,293 results. It includes a 'RESULTS BY YEAR' bar chart showing an increase in publications from 1952 to 2021, and a 'TEXT AVAILABILITY' section with checkboxes for Abstract, Free full text, and Full text.

# Institutional Dashboard

The Institutional Dashboard provides analysis of the PDFs users are trying to access with EndNote Click, whether they have been successful and if so, how access was achieved.

Breakdowns by publisher and journal, provide Open Access information and can indicate which collections are in demand and how much Open Access content is available from them.

This can be made available to sites subscribing to Web of Science that have a large number of users.

# Data Citation Index

# Data Citation Index

- The challenge: Open Data in repositories
- Enormous variation in searchability and data structure

# Data Citation Index

The **Data Citation Index** provides access to **research data and software**.

More than **10M** datasets, stored in over **430** repositories.

It **indexes citations** to the data and **promotes correct citation of data** by including “**How to Cite This Data**” guidance.

**More than 90% of the content is openly accessible.**

We encourage anyone hosting a data repository to submit it for coverage  
[repository.submission@clarivate.com](mailto:repository.submission@clarivate.com)

Supports the **discoverability** of Open Data

- The Data Citation Index is the only citation index covering **data sets, studies, repositories** and **software**
- In addition to the citations provided by the repository, we include citations from articles in **Web of Science**.
- **Improves discovery, use,** and **attribution** of data.
- Supports FAIR data sharing and the **FORCE 11 Joint declaration** on data citation, as well as **DataCite** citation guidelines.

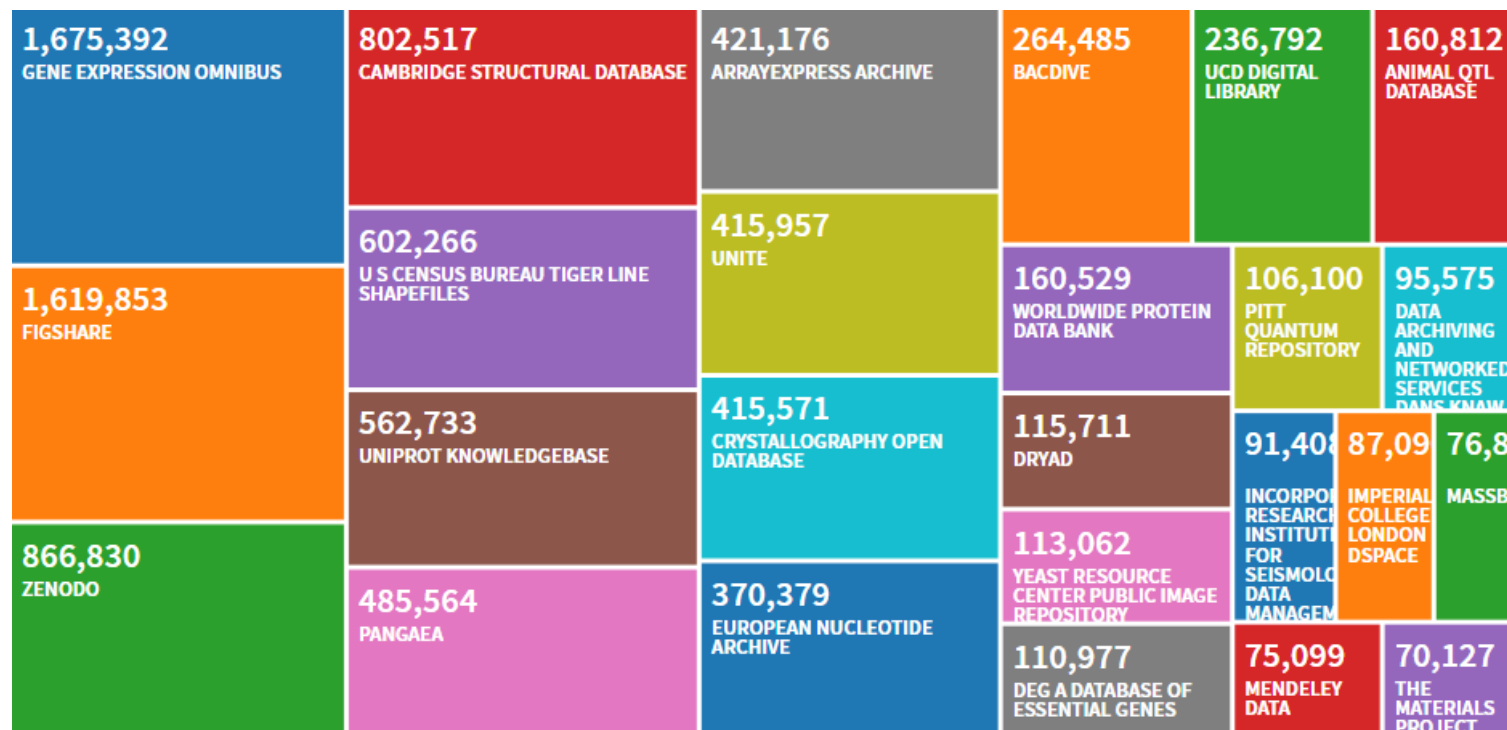

We maintain close relationships with **Research Data Alliance, DataCite,** and the **Australian National Data Service**.

**Integrated** with the literature indexed in the Web of Science.

# Data Citation Index

>430 repositories  
>1.2 million Data Studies  
>10 million Data Sets  
Plus over 180K Software records

# InCites

# Journal Citation Reports (JCR)

Redesigned in 2018 to provide a Journal Profile and promote **responsible metrics**, rather than just focusing on the **Journal Impact Factor**.

For **transparency**, we have provided easy access to the data that goes to make up the **Journal Impact Factor**.

We also provide **filtering by Open Access** and clear **Open Access status** indicators on the profiles.

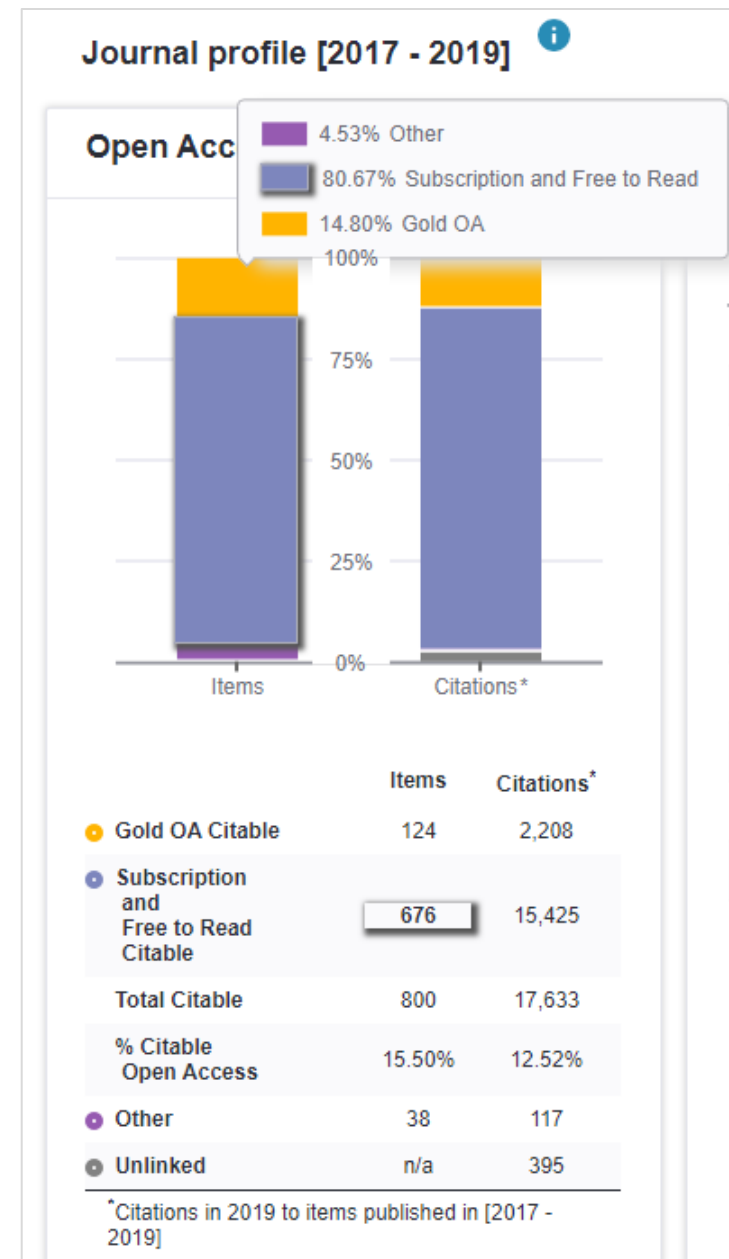

Last year we added **Open Access Profiles**, showing items and citations to those items, broken down by type of access.

<b>TITLES</b> ISO: Green Energy Environ. JCR Abbrev: GREEN ENERGY ENVIRON	<b>LANGUAGES</b> English
<b>CATEGORIES</b> GREEN & SUSTAINABLE SCIENCE & TECHNOLOGY -- SCIE ENERGY & FUELS -- SCIE CHEMISTRY, PHYSICAL -- SCIE ENGINEERING, CHEMICAL -- SCIE	<b>PUBLICATION FREQUENCY</b> 4 issues/year Open Access from 2016

**Open Access**  
 Open Access

The Gold OA label on the profile page, refers to papers tagged as DOAJ Gold or Other Gold in the Web of Science.

Bronze and Green are included in Subscription and free to read label.

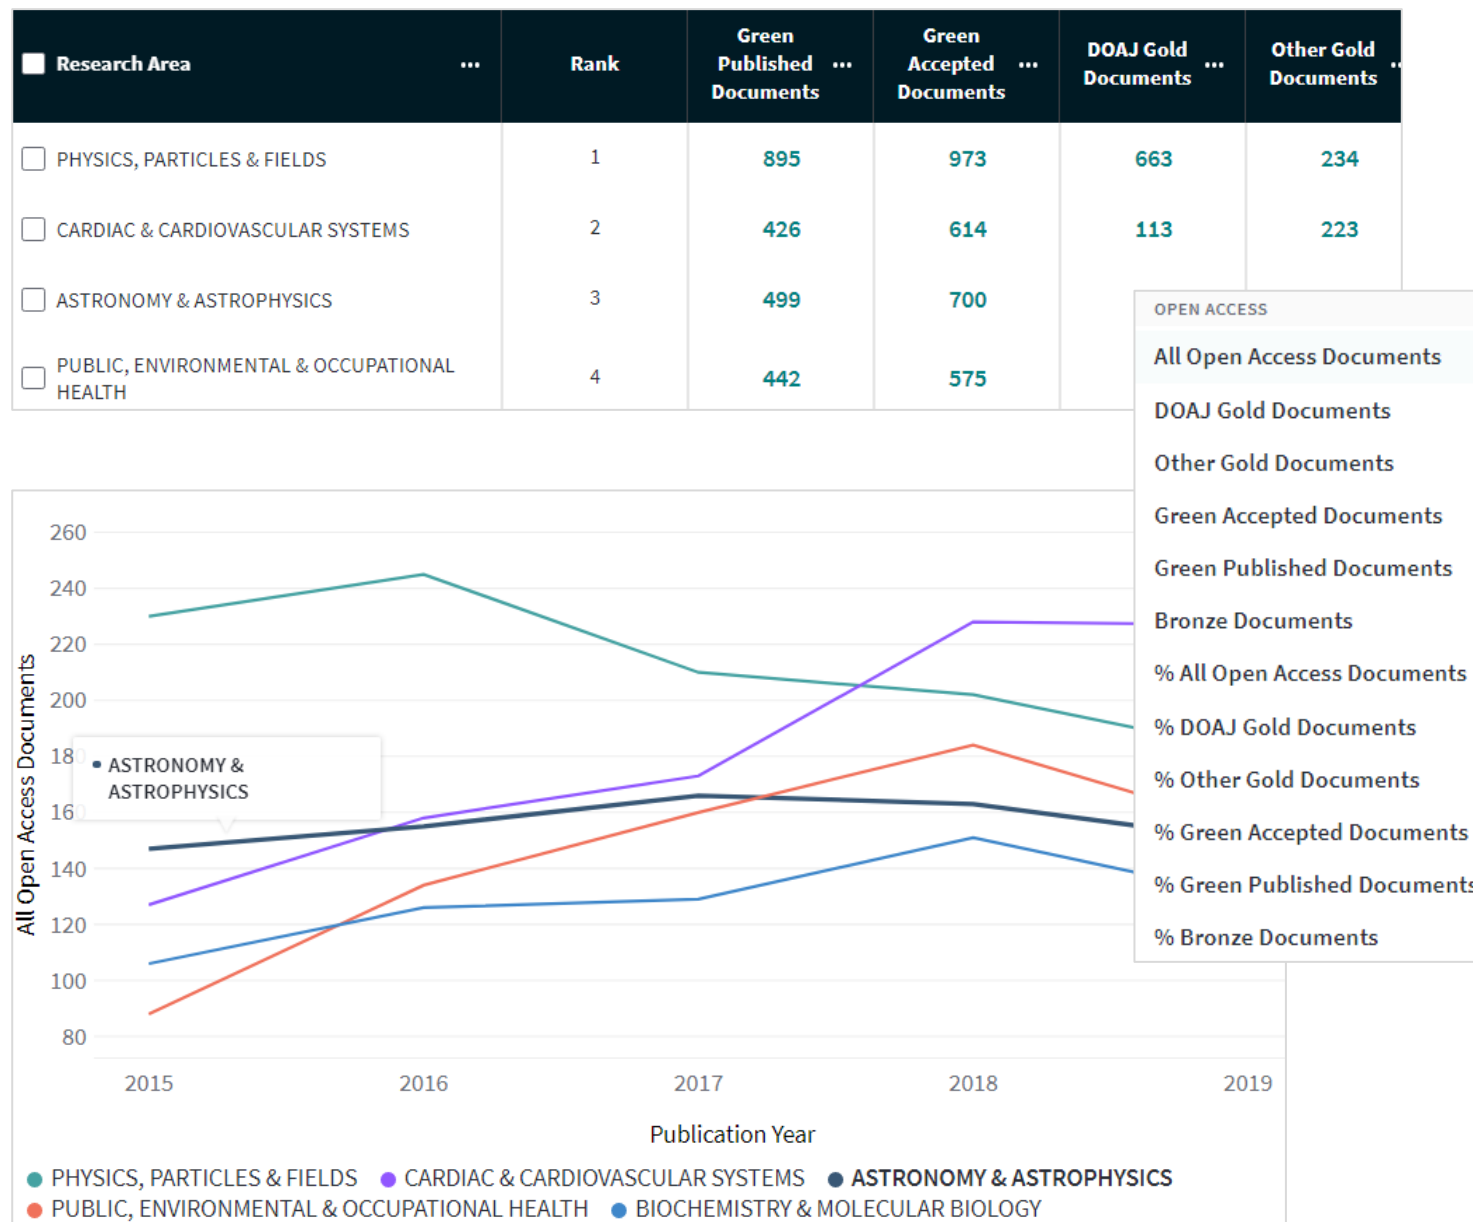

# InCites B&A

Open Access status available across the **Web of Science** platform, is also included in **InCites**, with **12 indicators**.

This makes it possible to analyse Open Access versions: Gold or Bronze and Green.

The Open Access data is included in **exports** and is in the **APIs**.

# Performance analysis Open Access v Subscription

A strong influencer in favour of Open Access, is that the citation metrics like % in the Top 10% and Category Normalize Citation Index (CNCI) are generally higher for Open Access publications.

- Here an organisation's Open Access and Subscription output have been compared on those two metrics.

Unit of Assessment	Publications		CNCI		% in Top 10%	
	Open Access	Subscription	Open Access	Subscription	Open Access	Subscription
01 Clinical Medicine	3453	1368	2.582	1.364	24.327	12.573

# Resurse adiționale

# Publons

For over 2 years, **Publons** has linked up with a number of publishers, to put into place the first automated, scalable, transparent peer review workflow.

The model...

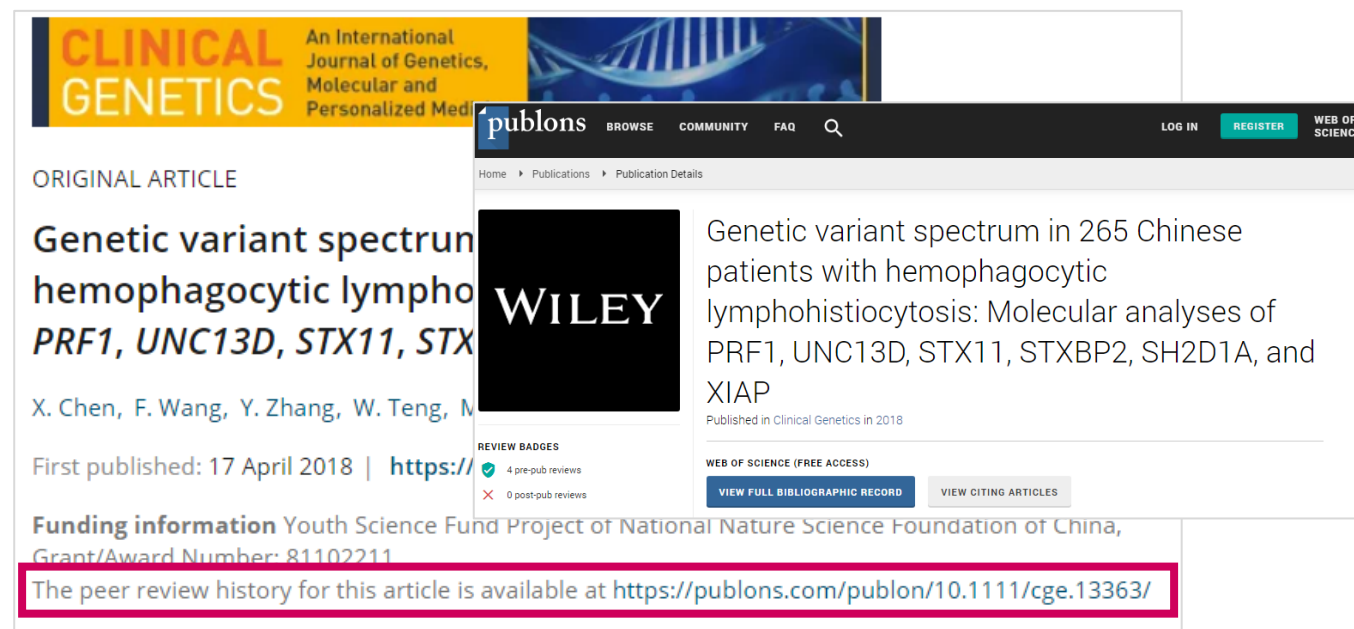

- Is scalable and robust
- Requires minimal work from the publisher
- Is a simple process for researchers
- Provides reviewers, authors and editors a 360° view of their contribution
- Is GDPR compliant

Implementing open peer review at scale: a case study on Transparent Peer Review >

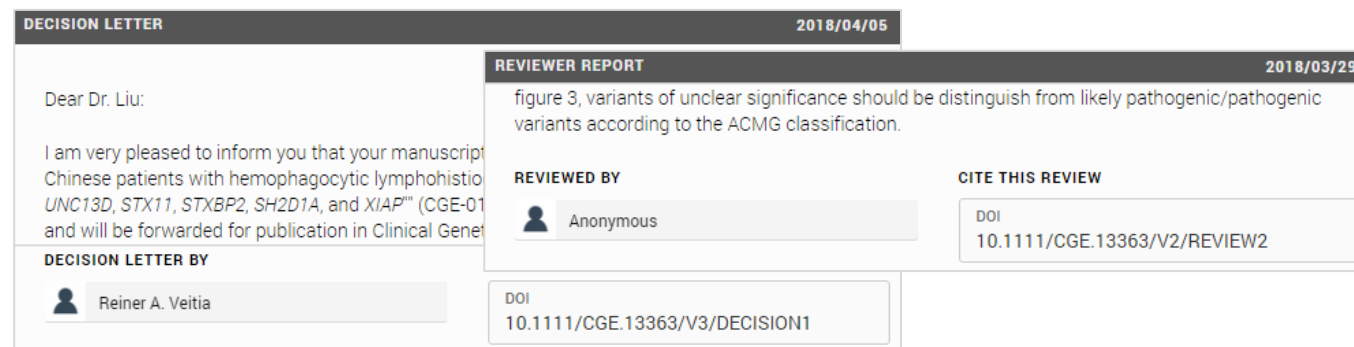

# WILEY

# THE ROYAL SOCIETY PUBLISHING

The screenshot shows the Publons interface for an article. The article title is "Genetic variant spectrum in 265 Chinese patients with hemophagocytic lymphohistiocytosis: Molecular analyses of PRF1, UNC13D, STX11, STXBP2, SH2D1A, and XIAP". The authors are X. Chen, F. Wang, Y. Zhang, W. Teng, M. The article was first published on 17 April 2018. The funding information is "Youth Science Fund Project of National Nature Science Foundation of China, Grant/Award Number: 81102211". A red box highlights the URL for the peer review history: <https://publons.com/publon/10.1111/cge.13363/>. The article has 4 pre-public reviews and 0 post-public reviews. It is available for free access on the Web of Science.

The screenshot shows a decision letter and a reviewer report. The decision letter is dated 2018/04/05 and is from Reiner A. Veitia. The reviewer report is dated 2018/03/29 and is from an anonymous reviewer. The reviewer's comment is: "figure 3, variants of unclear significance should be distinguish from likely pathogenic/pathogenic variants according to the ACMG classification." The reviewer's DOI is 10.1111/CGE.13363/V2/REVIEW2. The decision letter's DOI is 10.1111/CGE.13363/V3/DECISION1.

# VIVO

Research producing organisations can publicly and openly display their contributions using research portals partly fed by **Web of Science** data.

Research portals can be built by organisations, or can be open source, such as **VIVO**.

The **Web of Science** group is a certified **VIVO** partner.

# Master Journal List

Last year saw the launch of a new version of the **Master Journals List**, providing easier access to information, via type ahead search boxes and a wide range of filters.

In addition, there are **profiles** for each of the journals, containing general information, full details on **Open Access**, Peer Review process and links to the **Journal Citation Reports** for in depth information.

**Match Manuscript** has also been added and this clearly shows which journals are in the DOAJ.

The screenshot displays the search interface for the Master Journals List. At the top, a search bar contains the text 'ener'. Below the search bar, a dropdown menu lists several journal categories, including 'ENERGY & FUELS', 'ENGINEERING MANAGEMENT/GENERAL', 'ENVIRONMENTAL ENGINEERING & EN...', 'GENERAL', 'GENERAL & INTERNAL MEDICINE', 'MEDICAL RESEARCH, GENERAL TOPICS', 'MEDICINE, GENERAL & INTERNAL', and 'SOCIAL SCIENCES, GENERAL'. To the right of the search bar is a 'Search Journals' button. Below the search bar, there is a section titled 'Already have a manuscript?' with a sub-heading 'Find journals where your research is cited by tens of millions of citation connectors in the Master Manuscript Matcher.' and a 'Match Manuscript' button.

The main content area is divided into several sections:

- Open Access Information**: Includes 'OA Statement' (with a 'Visit Site' link), 'License' (Creative Commons BY license, with a 'Visit Site' link), 'Waiver Policy' (with a 'Visit Site' link), 'Archiving' (LOCKSS, CLOCKSS, Portico, PMC/Europe, PMC/PMC Canada), 'Machine-Readable CC Licensing' (Yes), and 'DOAJ Seal' (Yes, with the DOAJ Seal logo).
- General Information**: Includes 'Journal Website' (with a 'Visit Site' link), '1st Year Published' (2008), 'Country' (ENGLAND), 'Aims and Scope' (with a 'Visit Site' link), 'Submission Website' (with a 'Visit Site' link), 'Avg. Number of Weeks from Submission to Publication' (15), 'Article DOIs' (Yes), and 'Full-Text Formats' (PDF, HTML).
- Peer Review Information**: Includes 'Review Process' (with a 'Visit Site' link), 'Sign Report' (No), 'Publons Reviews' (584), and 'Publons Partner' (No).
- APC Fee**: 1,565 GBP.
- Author Holds Copyright without Restrictions**: Yes.
- Deposit Policy Directory**: Sherpa/Romeo.
- Full-Text Crawling Permitted**: Yes.
- Unrestricted Reuse in Compliance with BOAI**: Yes.
- DOAJ Subjects / Keywords**: Biofuels, Biotechnology, etc.

At the bottom, there is a 'PubMed® Information' section with the following details:

- Indexed In**: MEDLINE®, PubMed®
- MeSH® Headings**: Internal Medicine
- NLM® ID**: 101589534
- Coverage Dates**: MEDLINE: v173n1, Jan. 2013-PubMed: v173n1, Jan. 2013-
- Broad Subject Term(s)**: Internal Medicine
- Corporate Author**: American Medical Association, etc.

# Example Use Case

Open Access usually involves APC fees.

Using the “Corresponding Author Position” in InCites, you can identify the publications that might have incurred fees.

These can be exported to **Web of Science** to break them down by journal.

The screenshot shows the InCites interface with several filters applied: Time Period: 2015-2019, Organization Name: Coventry University, Document Type: Article, Review, Schema: Web of Science, Open Access: DOAJ Gold, Other Gold, and Author Position (2008-2020): Corresponding. The table view shows 1 organization (Coventry University) with a rank of 1 and 311 Web of Science Documents.

Organization Name	Rank	Web of Science Documents
Coventry University	1	311

The screenshot shows the Organization Details for Coventry University, displaying 311 total documents. A table lists the first document with the following details:

Article Title	Authors	Source	Research Area	Document Type	Volume	Issue
Refugees, migrants, neither, both: categorical fetishism and the politics of bounding in Europe's "migration crisis"	Crawley, Heaven; Skleparis, Dimitris	JOURNAL OF ETHNIC AND MIGRATION STUDIES	ETHNIC STUDIES; DEMOGRAPHY	Article	44	1

# Example Use Case

Using **Analyze Results** in **Web of Science**, number of documents in each journal can be established.

Looking at the “**Open Access Information**” panel for each journal in the **Master Journal List**, provides the **APC fees**.

The **Analyze Results** table can be exported, to enable calculations on the data.

*Note that these are the standard publish APC fees and do not reflect any individual deals.*
