

Metode de ameliorare a profilului de autor

Adriana FILIP - Solutions Consultant
adriana.filip@clarivate.com

Decembrie 2021

Importanța de a vă pune în valoare cercetarea

- Îmbunătățiți reputația dvs., a departamentului și a instituției dvs.
- Demonstrați amploarea cercetărilor dvs. către:
 - Comisiile de angajare
 - Agențiile de finanțare
 - Evaluatori de titularizare
- Identificați cercetători pentru mentorat sau colaborare

Ce este dezambiguizarea numelui de autor?

Ambiguitatea numelui este o problemă frecvent întâlnită în comunitatea științifică.

- Cercetătorii diferiți publică sub același nume
- Cercetătorii individuali publică sub mai multe nume
- Limbile și convențiile culturale de denumire introduc provocări suplimentare.

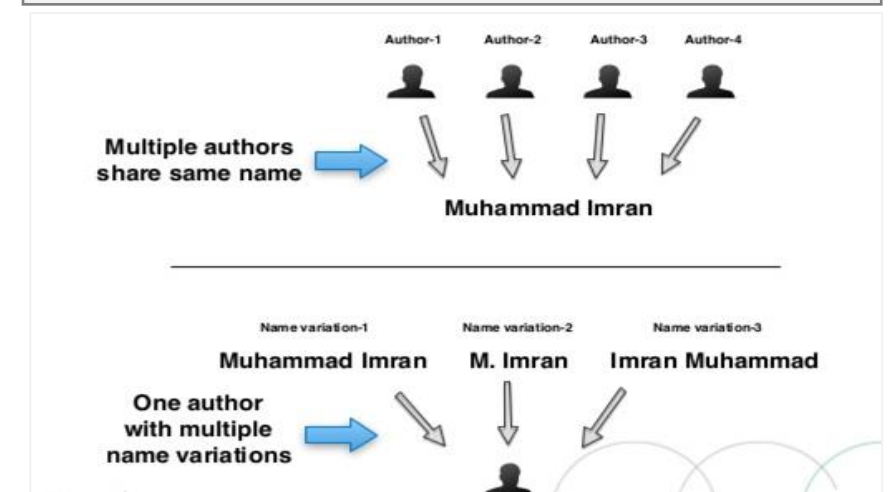

Dezambiguizarea autorului este un proces care urmărește să găsească toate publicațiile care aparțin unui anumit autor și să le distingă de publicațiile altor autori care poartă același nume.

Noam Chomsky
Linguist

Web of Science

Author Search

Author Search ghidează rapid utilizatorii prin procesul de localizare a autorului pe care îl căutați.

Economisește timp pentru utilizatori, îmbunătățind ușurința și acuratețea găsirii publicațiilor autorilor în Web of Science Core Collection.

- Numele complet unice vă vor duce direct la fișa autorului (Author Record).
- Denumirile ambigue vă vor duce la un ecran de rezultate, unde puteți să vă rafinați căutarea, să selectați înregistrarea corectă sau să unificați înregistrările într-o singură vizualizare a autorului.

Algoritmul nostru de dezambiguizare utilizează peste 40 de indicatori pentru a grupa publicațiile probabil scrise de aceeași persoană într-o fișă de autor.

The screenshot displays the 'RESEARCHERS' search interface. At the top, there are two tabs: 'DOCUMENTS' (highlighted in purple) and 'RESEARCHERS'. Below the tabs, there is a descriptive text: 'Search for an author to see their author record. An author record is a set of Web of Science Core Collection documents likely authored by the same person. You can claim and verify your author record from your author record page.'

The search area includes a dropdown menu labeled 'Name Search' with a downward arrow. Below this are two input fields: 'Last Name' and 'First Name and Middle Initial(s)'. A button labeled '+ Add name variant' is positioned below the 'Last Name' field.

Two green callout boxes highlight search options: 'Căutare după numele autorului' (Search by author name) and 'Căutare după Web of Science ResearcherID sau ORCID' (Search by Web of Science ResearcherID or ORCID). The latter callout points to a dropdown menu labeled 'Author Identifiers' and a corresponding input field labeled 'Web of Science ResearcherID or ORCID'.

Author Impact Beamplots

Trecând cu mouse-ul peste noduri, se afișează detalii despre articolul respectiv și un link către acesta în Web of Science.

Nodurile mai mari indică faptul că mai mult de o lucrare ocupă aceeași locație în grafic.

Author Impact Beamplots

DE REȚINUT

- Valorile provin din InCites Benchmarking & Analytics.
- Beamplots includ doar publicațiile cu tipul de document Article sau Review.
- Percentilele sunt calculate pentru publicații începând cu anul 1980. Publicațiile din anul curent și din anul precedent sunt excluse din beamplot (din cauza numărului redus de citări).
- Publicațiilor li se pot atribui mai multe. Categoria afișată este cea mai performantă.

Bio

Elisabeth Bik is a Science Editor at uBiome, a company that develops microbiome sequencing analysis kits for consumers and clinicians. She received her PhD at Utrecht University in The Netherlands and worked at the Dutch National Institute for Health and the St. Antonius Hospital in Nieuwegein. In 2001, she joined Stanford University's School of Medicine, where she worked on the characterization of the human microbiome in thousands of oral, gastric, and intestinal samples. In addition, she analyzed the microbiota of marine mammals, in particular that of dolphins and sea lions. When she is not in the lab, she can be found working on her blog www.microbiomedigest.com, an almost daily compilation of scientific papers in the rapidly growing microbiome field, or on Twitter at @Microbiomdigest. She is also interested in the detection of plagiarism and image duplications and manipulations in the published biomedical literature, and currently peer reviews 30 to 40 manuscripts per year.

Sync with ORCID

Import by identifier (e.g. title or DOI)

Import by file upload (RIS, CSV, or BIBTEX)

You can also add publications to your profile that are already in your ORCID, search for them by an identifier and import them, or import them from a text file.

Publons

Claim your publications directly from Web of Science and export to your Publons profile.

Note: If you have a pop-up blocker, you will need to disable this to be able to claim your publications from within Web of Science.

The screenshot shows the Web of Science interface. At the top, there is a navigation bar with the Clarivate logo, language settings (English), and a Products menu. Below this, the 'Web of Science' logo is followed by search and navigation options: Search, Marked List, History, and Alerts. A user profile icon for 'Klementyna Karlinska-Batres' is visible in the top right.

The main content area displays search results for the query 'gills (All Fields)'. It shows '39,629 results from Web of Science Core Collection for:'. There are buttons for 'Analyze Results', 'Citation Report', and 'Create Alert'. A search bar contains the query 'gills (All Fields)'. Below the search bar, there are options to 'Copy query link' and 'Publications You may also like...'. The 'Refine results' section includes a search bar for 'Search within results for...'. On the left, 'Quick Filters' are listed: Highly Cited Papers (84), Hot Papers (4), Review Articles (918), Early Access (156), Open Access (9,084), and Associated Data (352). Below this, 'Publication Years' are listed: 2022 (23), 2021 (1,763), and 2020 (2,039).

The search results list two items:

- Item 1: 'PROPORTIONAL HAZARD... BASED ON WEIGHTED RESIDUALS' by GRAMBSCH, PM and THERNEAU. Sep 1994 | BIOMETRIKA 81 (3), pp. It has 3,331 Citations and 30 References. A green box highlights the 'Add to my Publons profile' option in the export menu.
- Item 2: 'HOW TO MEASURE AND P... TION-COEFFICIENT OF A PROTEIN' by PACE, CN; VAJDOS, F; (...); GRAY, J. Nov 1995 | PROTEIN SCIENCE 4 (1). It has 3,236 Citations and 62 References.

An export menu is open over the first result, showing options: EndNote online, EndNote desktop, Add to my Publons profile (highlighted), Plain text file, RIS (other reference software), BibTeX, Excel, Tab delimited file, Printable HTML file, InCites, and FECYT CVN. There is also a 'More Export Options' link.

Publons

In the “Profile” section, make sure you enter your “Full Name” as it is likely to appear in your publications and add additional variants in the “Alternate publishing names”.

These are used when searching the Web of Science for publications.

You can also choose what others will see when they view your Public Profile.

Publons

In the “Permissions” section, you can decide how much interaction there is between your profile and the outside world, on your review activity.

Plus, what is shown on your profile.

The screenshot displays the Publons user interface. On the left is a navigation sidebar with the following items: 'Me' (with sub-items: Dashboard summary, Public profile, Export Publons CV, Citation map), 'My records' (with sub-items: Publications, Peer reviews, Editor records), 'Activity' (with sub-items: Notifications, Pending records), 'Community' (with sub-items: Scored publications, Journals, ResearcherID badge), and 'Settings' (with sub-items: Account, Profile, Affiliations, Email, and **Permissions**, which is highlighted with a green border). The main content area is titled 'Reviews from partners' and contains the following text: 'Publons partners with journals and funders to simplify the process of getting recognition for your reviews. Whenever one of our partners provides us with review records, we can match these to the email addresses associated with your account and automatically add the review data to your profile for you.' Below this is a section 'Allow Publons to automatically add:' with a bulleted list: 'All future reviews you complete for partners.' and 'All reviews you have completed for partners in the past, if a partner uploads that data on your behalf.' A link 'Click here to learn more about how past reviews are added to Publons.' is provided. A checked checkbox is labeled 'Automatically add reviews from Publons' partners'. Below this is a link 'Find out more about Publons' partnerships.'. A dashed line separates this from the 'Pre-publication review display preferences' section. This section includes the text: 'Choose default display preferences for pre-publication reviews you've written as well as those of publications you've authored. We consider the preferences of the reviewer, author, journal, and publisher before displaying a pre-publication review and will never display more information than your preferences allow. Find out more about review display preferences.' Below this is a section 'YOUR REVIEWER PREFERENCE' with two dropdown menus: 'Privacy' (set to 'Show journal/conference') and 'Content' (set to 'Hide review content'). At the bottom is a checkbox 'Apply these settings to all of your existing pre-publication reviews' which is currently unchecked.

Publons

Legătura cu ORCID

Also in the “Permissions” section, you can decide how much interaction there is between your profile and your ORCID record.

Most users want full two-way synchronisation, so they only have to maintain one profile.

ORCID Settings

You have linked ORCID record:  <https://orcid.org/0000-0001-9593-4831>

SYNC YOUR ORCID RECORD WITH PUBLONS

Tick the box below and save your settings to automatically import any publications you add to your ORCID record, when you add them to your ORCID record.

Keep my publication list up to date with my ORCID record

Note: when you select this option we will import your publications from ORCID to Publons. Any future changes you make to your publication record on ORCID will be reflected on your Publons profile.

EXPORT PUBLICATIONS TO ORCID:

Keep my ORCID publication list up to date with my Publons account

You have 0 eligible publications which can be exported to your ORCID record. If you believe you have exportable publications which are not counted above, please read about export requirements.

You can use Publons' connections to *Web of Science* and other services to import more of your publications here.

EXPORT REVIEWS TO ORCID

Keep my ORCID review list up to date with my Publons account

You have no verified reviews which can be exported to your ORCID record. If you believe you have exportable reviews which are not counted above, please read about export requirements.

There are several ways to add verified reviews to your Publons profile. You can read about all of them here.

Publons

Your Publons profile can also include your peer review, grant review and editorial activities.

This means that anyone viewing your profile will a full picture of your work.

Based on the permissions you have set.

There are currently over 10M verified review in Publons.

PUBLICATIONS PEER REVIEW

- I search WoS for my published name variants
- My Author Record displays my associated RID (linked to Publons).
- My Author Record may contain other algorithmically-added publications.
- The record is not yet 'claimed'.

- I 'claim' the Author Record via Publons.
- I select the publications that are mine.
- My list of publications in Publons is updated to include newly added publications.

- My Author Record is 'claimed'
- No-one else can claim it
- The publications list matches Publons*

*Publons does not currently import some types of publication (e.g., corrections) therefore the numbers may sometimes not match.

“I am an author with publications in Publons from an ‘old’ RID/ORCID (different name)”

The screenshot shows a Publons author record for 'Smith, Julie'. It includes an 'About' section with 'Published name' and 'Organizations' (University of Cambridge, Chatham House, GPAL Project). There is a 'Metrics' section with an 'Author Impact Beampoint Summary' and a 'Citation Network' section showing 4 H-index and 19 Total Publications. A 'Claim my record' button is visible.

The screenshot shows a selection interface for publications. It displays 'Results: Selected 0 of 88 publications'. There is a table with columns for 'SELECT', 'DATE', 'TITLE', and 'JOURNAL/CONFERENCE'. The table lists several publications from 2019, including 'Cadherin-11-mediated adhesion of macrophag...', 'IL-6 mediates ER expansion during hyperpolari...', 'The Vascular-Parenchymal Crosstalk Regulate...', 'Antifibrotic Effect of PBI-4050 in Human Norm...', 'Dectin-1 Is a Marker of Alternatively Activated ...', and 'The IRE/XBP1 Pathway Is Activated in Alterna...'. An 'IMPORT SELECTED PUBLICATIONS' button is present.

The screenshot shows a Publons author record for 'Smith, Julie Patricia'. It includes a profile picture, 'Published names' (Smith, Julie, Smith, Julie P., Smith, JP, Smith, J. P., Smith, J), 'Organizations' (Australian National University, Breastfeeding Promot Network India, 67 Irvine St), and 'Other Identifiers' (ORCID iD: https://orcid.org/0000-0001-9796-7629). A 'View public profile' button is visible.

- I search WoS for my published name variants
- My Author Record displays without an associated RID.*
- The record is unclaimed.
- The publications list is augmented (by DAIS)

- I ‘claim’ the record in Publons.
- I select the publications that are mine.
- This submits feedback to WoS (i.e., these are mine, these are not mine)
- My list of publications in Publons updates to include any newly added publications

- My WoS Author Record is ‘claimed’
- No-one else can claim it
- The publications list matches Publons*
- My RID is now associated with the authorships of those publications.
- My RID displays on my Author Record.

*DAIS has been unable to match the RID name to any names of the authorships with those publications.

*Publons does not currently import some types of publication (e.g., corrections) therefore the numbers may sometimes not match

PUBLICATIONS PEER REVIEW

- I create an account in Publons.
- I add Alternative publishing names.
- I click ‘Publications’ > ‘Import publications’ > ‘See my Web of Science Publications’
- Publons searches WoS for matching Author Records by email and then by name or alternative published names

- I select the publications that are mine.
- This submits feedback to WoS (i.e., these are mine, these are not mine)
- My list of publications in Publons updates to include any newly added publications.

- My WoS Author Record is ‘claimed’
- No-one else can claim it
- The publications list matches Publons*

*Publons does not currently import some types of publication (e.g., corrections) therefore the numbers may sometimes not match

“I am a new user claiming my record on Web of Science”

The image consists of three screenshots from the Web of Science interface, illustrating the process of claiming an author record. The first screenshot shows the search results for 'SMITH, Julie', with a list of author records and their associated organizations and publication counts. The second screenshot shows the 'VIEWING 2 COMBINED AUTHOR RECORDS' page, which includes a 'Claim my record' button and a 'Metrics' section with an 'Author Impact Beamplot Summary'. The third screenshot shows the 'Publications' list, which includes filters for 'Years Published', 'Institutions', and 'Author Names', and an 'IMPORT SELECTED PUBLICATIONS' button.

- I navigate to Author Search in Web of Science Core Collection
- I search for my published names
- I select any records that look like they contain my publications.

- I click 'claim this record'
- I get taken to Publons, where I create a new account.

- I select which publications are mine from the list (I can filter out publications by year, organization and name).
- I click to import the publications.
- (After ~24 hrs) My WoS Author Record is 'claimed'
- No-one else can claim it
- The publications list matches Publons*

Vă mulțumesc!
