Sărbătorirea centenarului Eugene Garfield

Moștenirea lui Eugene Garfield și viitorul scientometriei

Eveniment online

19 noiembrie (15:00 - 17:00)

https://discover.clarivate.com/eugene_garfield

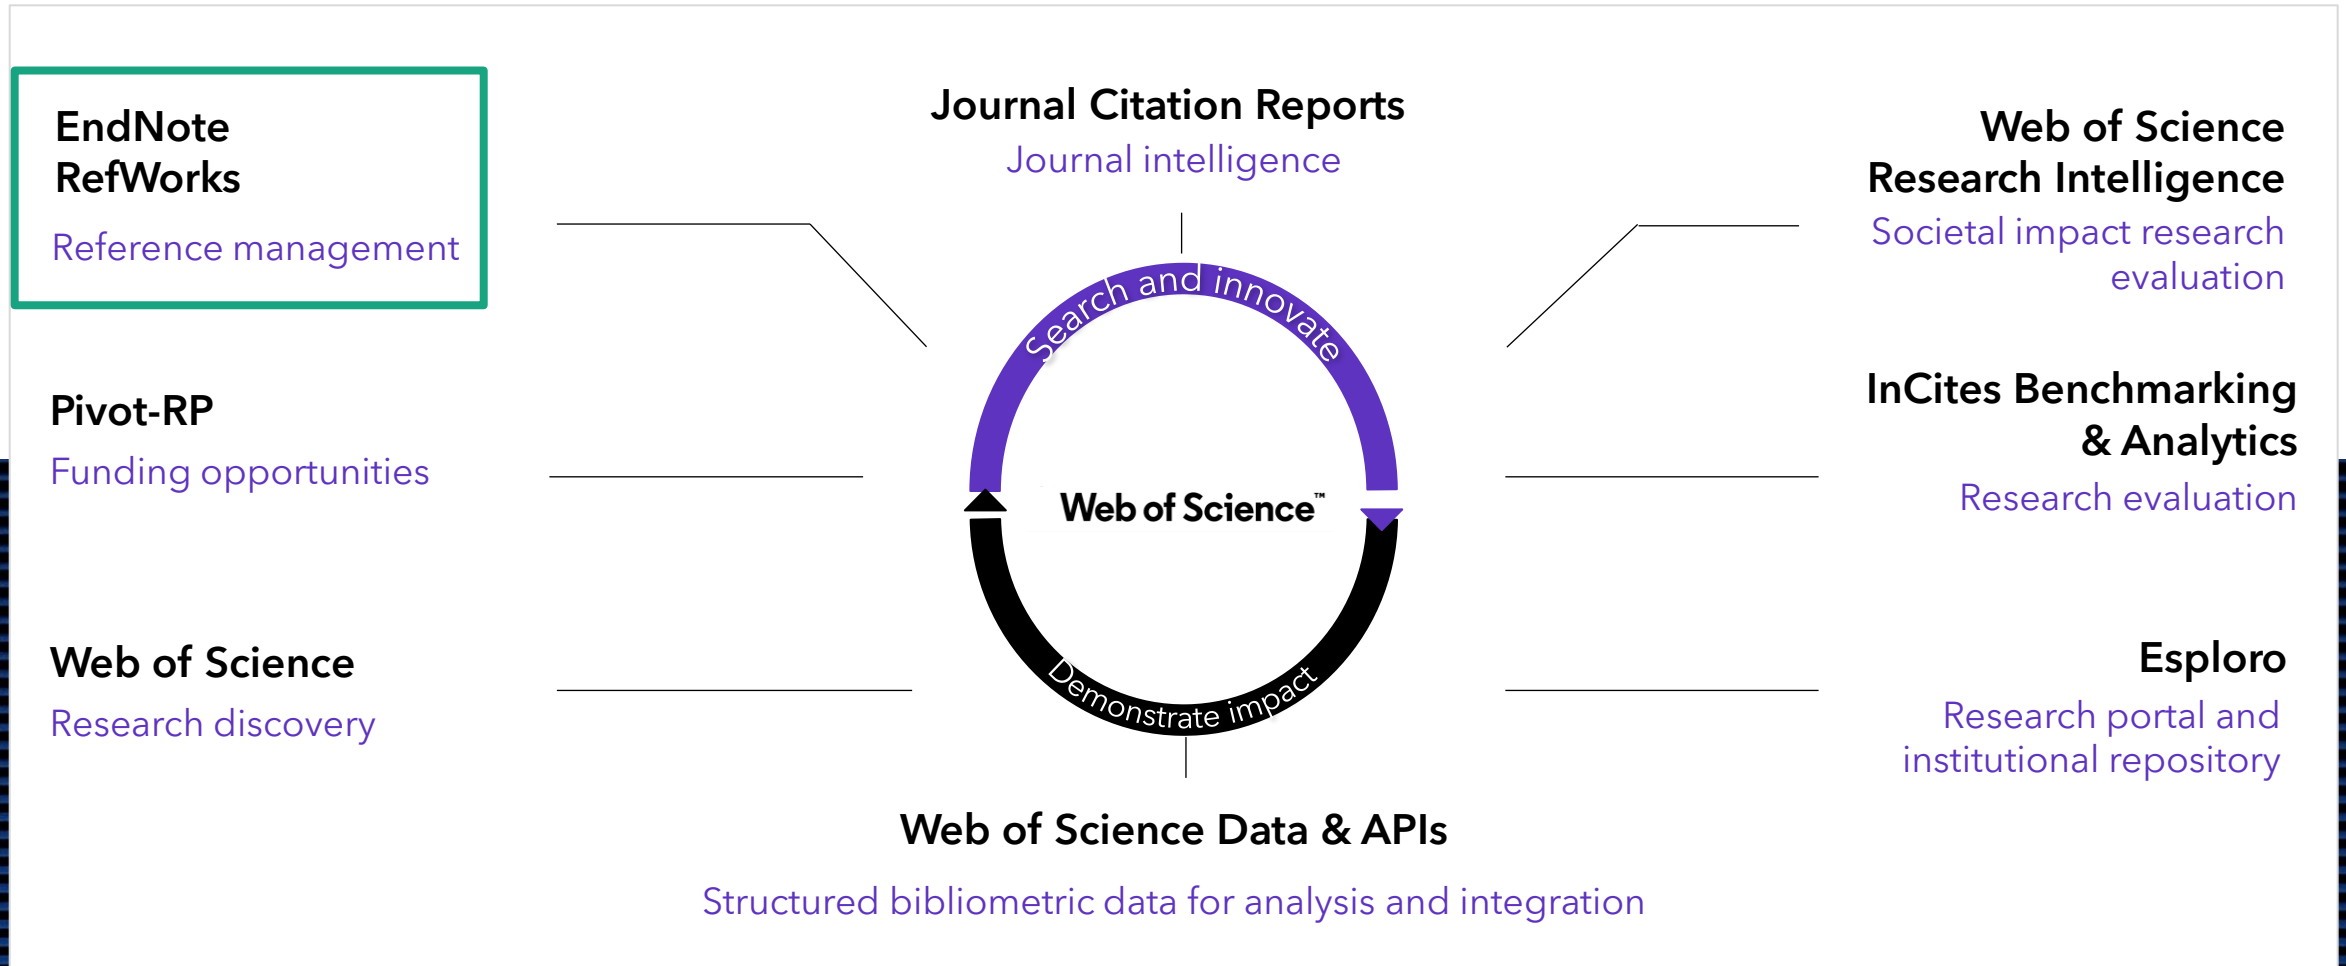

Anul acesta sărbătorim centenarul doctorului Eugene Garfield, vizionarul care a fondat Institute for Scientific Information (ISI) și a fost pionierul indexării citărilor.

Inovațiile sale revoluționare au pus bazele scientometriei moderne și ale Web of Science.

Acest eveniment revine asupra rădăcinilor intelectuale și orizonturilor în continuă evoluție ale scientometriei.

[Xiang, CQ](#); [Wu, CW](#); (...); [Zhang, G](#)
 Feb 2022 | [FRONTIERS OF PHYSICAL SCIENCE](#)
 In recent years, lithium ion (Li-ion) batteries have attracted much attention because of their high energy density and long cycle life. However, the thermal management of lithium ion batteries is a big challenge. In this paper, the thermal transport properties of lithium ion batteries are investigated. The results show that the thermal conductivity of the battery is significantly affected by the electrolyte and the separator. The thermal conductivity of the battery is higher when the electrolyte is a solid polymer electrolyte (SPE) than when it is a liquid electrolyte. The thermal conductivity of the battery is also higher when the separator is a ceramic separator than when it is a polymer separator. The results of this study can provide a reference for the design and optimization of lithium ion batteries.

Organize references in groups

The screenshot displays the Clarivate software interface for organizing references. At the top, a purple box highlights the '[Unfiled]' folder. Below it, a navigation bar shows 'Show 10 per page' and 'Page 1 of 1'. A dropdown menu is open, showing options to 'Add to group...' and 'New group'. The menu lists several existing groups: 'Artificial Intelligence_gener...', 'Climate change', 'Energies', 'Growth hormone', 'Nobel Prize_general', and 'Oceanography'. The 'New group' option is highlighted. The main area shows a list of references, including 'Chatman, Seymour' and 'What Novels Can Do That Films Can't (And Vice Versa)'. Each reference entry includes a checkbox, the author, the year, the title, and a 'Full Text' button. The interface also features a 'Copy To Quick List' button and a 'Delete' button.

We recommend adding new references to a group (new or existing) just after importing them in the [Unfiled] folder, so you leave the [Unfiled] folder empty before the next import
