The screenshot shows the CAB eBooks website homepage. At the top, there is a navigation bar with links for 'Other CABI sites', 'Home', 'About', 'MARC Records', 'Help', 'Contact', 'Mobile', and 'Account'. Below this is the CAB logo and the 'CAB eBooks' header, which includes the text 'Ebooks on agriculture and the applied life sciences from CAB International'. A user login box indicates the user is signed in as 'Assessment Institution ANELIS Plus' via IP Address. A horizontal menu lists various categories: 'Agriculture', 'Animal & Veterinary', 'Environmental Science', 'Human Health & Nutrition', 'Leisure & Tourism', and 'Plant Sciences'. The main search area is highlighted with a green background and contains a search bar with the placeholder 'Enter keyword or phrase', a 'Search within topic' dropdown, a 'Filter' dropdown, and a 'Search' button. A callout box with the number '1' points to the search bar. Below the search bar is a link for 'Advanced Bibliographic Search'. The 'Latest content' section is highlighted with a green background and contains two book listings. The first listing is for 'Nutrition and feeding of organic poultry.' by Blair, R., with a 'Subscribed' button. The second listing is for 'Animal welfare in a changing world.' with a 'Subscribed' button. A callout box with the number '2' points to the 'Subscribed' button in the first listing. On the right side, there is a 'My CABI Account' section with options for 'Create and export short lists', 'Save Content', and 'Save Searches'. Below that is a 'My Collections' section showing access to the 'eBook Choice Anelis Plus Collection'. At the bottom right, there is a 'Content types' section.

Lista de rezultate

tomorrow's, world. The issues discussed range from the welfare of hunted animals, to debates around intensive farming versus sustainability, and the effects of climate and environmental change. It explores the effects of fences on wild animals and human impacts on carrion animals; the impacts of tourism on animal welfare; philosophical questions about speciesism; and the quality and quantity of animal lives. The welfare impacts of human-animal interactions are explored, including human impact on marine mammals, fish, wildlife, and companion and farm animals. Salient features of this book includes being concise, opinion-based views on important issues in animal welfare by world experts and key opinion leaders. Pieces based on experience, which balance evidence-based approaches and the welfare impacts of direct engagement through training, campaigning and education. A wide-ranging collection of examples and descriptions of animal welfare topics which outline dilemmas in the real world, that are sometimes challenging, and not always comfortable reading. This book is highly recommended for animal and veterinary scientists, ethologists, policy and opinion leaders, NGOs, conservation biologists and anyone who feels passionately about the welfare of animals.
