The image shows a composite of three screenshots from the ProQuest website illustrating the process of creating database shortcuts. The main screenshot on the left shows the 'Databases (2)' page with a list of databases. A tip at the top says: "Tip: Add database shortcuts, making it easier to select one or more favorite databases. Select databases to search, then click Use selected databases to go to the search form." A button labeled "Use selected databases" is highlighted with a red circle and the number 3. Below the tip, there are tabs for "Brief view" and "Detailed view", and a "View by name" / "View by subject" selector. A list of databases is shown, each with a document icon (numbered 2) and a checkmark. The first database, "British Nursing Index with Full Text (1994 - current)", is highlighted with a red circle and the number 1. An arrow points from the document icon of the first database to the "Add shortcut" button (numbered 4) in the "Preferences" screenshot on the right. The "Preferences" screenshot shows the "Database shortcuts" tab. It contains instructions: "Create shortcuts to your favorite databases or groups of databases so that you can access them quickly when you are signed into My Research. Specify a shortcut to be your default selection when you are signed into My Research. Use shortcut links to connect to ProQuest with your favorite databases already selected, whether you are signed into My Research or not." The "Add shortcut" button is highlighted with a red circle and the number 4. Below this, the "Shortcut details" section shows a list of selected databases: "Economic Accounting & Tax; Banking Information Source; ProQuest Asian Business & ReferenceYes". # Pagina de căutare simplă

De pe pagina principală, se selectează „Use selected databases”. Astfel, apare pagina de căutare simplă. De aici se poate selecta în continuare căutarea avansată 1. În cazul în care se dorește obținerea exclusivă a rezultatelor cu acces la documentul integral, atunci trebuie selectată opțiunea „Full text” 2, înainte de efectuarea căutării. „Peer reviewed” 3 se referă la afișarea documentelor care au fost deja trecute printr-un filtru de analiză certificat.

The screenshot shows the ProQuest search page. At the top, there is a navigation bar with the ProQuest logo and user icons. Below it, a menu includes 'Basic Search', 'Advanced Search', 'Publications', 'Browse', and 'Databases (2)'. A search bar is located in the center, with a magnifying glass icon on the right. Below the search bar, there are two checkboxes: 'Full text' and 'Peer reviewed'. Below these, there is a section titled 'Search subject areas' with a 'List view' link. This section contains eight category tiles: 'The Arts', 'Business', 'Health & Medicine', 'History', 'Literature & Language', 'News & Newspapers', 'Science & Technology', and 'Social Sciences'. ## Were separate-but-equal and antimiscegenation laws constitutional? Applying Scalian traditionalism to Brown and Loving

Turner, Ronald The San Diego Law Review; San Diego 40.1 (Winter 2003): 285-339.

Abstract/Details

Abstract [Translate](#) Hide highlighting

This Article examines the view, championed by Justice Scalia, that **traditionalism** can and should play a dispositive role in constitutional law and adjudication, and applies this view to the outcomes reached by the Court in Brown v. Board of Education and Loving v. Virginia. The author begins by examining Brown and Loving and the traditionalist arguments made to the Court by those who sought to preserve the challenged segregationist policies. He explores Justice Scalia's use of **traditionalism** in both Due Process and Equal Protection Clause cases, and then applies Scalia's **traditionalism** to the laws challenged in Brown and Loving. The author argues that the application of **traditionalism** in these cases would have led to the conclusion that the state sanctioned racial segregation and miscegenation were constitutional. The author concludes that while the constitutional text does not resolve the challenges presented in both Brown and Loving and thus the laws at issue could have survived as matters of law under unmodified Scalian **traditionalism**, the refutation of entrenched and traditional discriminatory practices was a significant development in our constitutional history.
