Pagina de căutare simplă

De pe pagina principală, se selectează „Use selected databases”. Astfel, apare pagina de căutare simplă. De aici se poate selecta în continuare căutarea avansată 1. În cazul în care se dorește obținerea exclusivă a rezultatelor cu acces la documentul integral, atunci trebuie selectată opțiunea „Full text” 2, înainte de efectuarea căutării. „Peer reviewed” 3 se referă la afișarea documentelor care au fost deja trecute printr-un filtru de analiză certificat.

The screenshot shows the ProQuest search page. At the top, there is a navigation bar with the ProQuest logo and user icons. Below it, a menu contains 'Basic Search', 'Advanced Search', 'Publications', 'Browse', and 'Databases (2)'. A search bar is located in the center, with a magnifying glass icon on the right. Below the search bar, there are two checkboxes: 'Full text' (marked with a '2') and 'Peer reviewed' (marked with a '3'). To the right of these checkboxes are links for 'Advanced search' and 'Search tips'. Below the search options, there is a section titled 'Search by subject areas' with a 'List view' link. This section contains eight category tiles: 'The Arts', 'Business', 'Health & Medicine', 'History', 'Literature & Language', 'News & Newspapers', 'Science & Technology', and 'Social Sciences'. Traditionalism and the Ascendancy of the Malay Ruling Class in Colonial Malaya

Abstract/Details

Abstract [Translate](#)

Amoroso begins where the conventional wisdom tends to assume the story starts: with depictions of Malays as "backwards" and "feudal," needing and expecting, as former Prime Minister Mahathir Mohamad declared in his path-forging *The Malay Dilemma*, special assistance and paternalistic leaders. Malay elites' complicity with Japanese occupying forces during World War II left the British dubious of their reliability; however, the latter's Malayan Union plan for self-government would grant liberal citizenship to the non-Malays who had been their wartime allies and essentially strip the Malay rulers of their authority.

Traditionalism and the Ascendancy of the Malay Ruling Class in Colonial Malaya Donna J. Amoroso Petaling Jaya, Selangor: Strategic Information and Research Development Centre; Singapore: NUS Press, 2014, 276p.

The recently concluded November 2014 United Malays National Organisation (UMNO) General Assembly saw strident calls for other Malaysian communities to respect and honor the superior position of Malays and Islam in the country; for the unity of all Malays under UMNO, as their representative and protector; and for stronger safeguards to prevent slurs against Malaysia's revered sultans. From the cheers (or virtual sighs of resignation) with which the press and public met these appeals, one might think such discourse had always been the norm in Malaysia. Yet as Donna Amoroso's insightful study reveals, in fact, no part of the order UMNO leaders invoke is inevitable or even all that deep-rooted. Rather, the position of the sultans, the multiracial balance of population and power, and the relative prominence of UMNO itself reflect colonial patterns and anticolonial struggles more than age-old attributes of a unified Malay public.

Published, sadly, only posthumously, Amoroso's convincing and readable *Traditionalism and the Ascendancy of the Malay Ruling Class in Colonial Malaya* takes us back to the early days of British colonialism, locating the roots of Malaysia's fundamentally conservative political order in patterns of indirect rule. Amoroso details the British elevation of what she terms "traditionalism," or "the conscious selection of appropriate ritual and idiom and the reconstruction of Malay culture
